CHEMBRIDGE

Journey into the World of Chemistry!

ChemBridge provides area 8th grade graduates with an exciting journey into big time chemistry, including stimulating hands-on experiments, great UAB faculty and staff to assist with understanding the chemistry behind the experiments, and preparing for the high school experience in a fun and educational environment.

ChemBridge is a non-residential summer program designed for rising 9th grade students. It is a one-week, five-day per week (8am-4pm) introductory hands-on laboratory and seminar course in chemistry.

A partnership between the UAB Department of Chemistry and CORD (Center for Outreach Development), ChemBridge will promote students' interests and knowledge of chemistry by introducing them to principles, methods, applications, and experiments used in chemistry research laboratories.

PROGRAM ACTIVITIES

Learn to employ state-of-the-art equipment and laboratory health and safety practices!

Perform hands-on experiments with real life applications!

Visualize molecular structures with computer applications and molecular models!

Experience exciting chemical demonstrations!

SEMINAR SESSIONS

Update on state-of-the-art science from UAB chemists

"Bridging the gap" from middle school to high school

Opportunities to learn about science careers

See and experience UAB firsthand

Other opportunities are available for science camps at UAB! Find out more at:

<http://www.uab.edu/cord/>

ELIGIBILITY REQUIREMENTS

Must be entering 9th grade in fall of '23

Have an interest in science

Commit to attending the program daily Monday through Friday, 8:00 am to 4:00 pm

Complete and submit the attached application and include \$50 application fee (check made out to CORD) by 5:00 p.m. June 1, 2023
