The Clinical Trials Initiative represents infrastructure enabling the design, implementation, execution and dissemination of clinical studies at the CCTS Hub, across the CCTS Partner Network and CTSA consortium.

Southeast Health Alliance for Research (SHARE)

The Trial Innovation Network (TIN) is an initiative within the CTSA Program composed of three organizational partners – the CTSA Program Hubs, the Trial Innovation Centers (TICs), and the Recruitment Innovation Center (RIC). All are key partners of the TIN and make unique and essential contributions. Other important partners include NIH Institutes, federal and non-federal stakeholders, researchers, patients, providers, and the public.

TriNetX is the global health research network enabling healthcare organizations, biopharma and contract research organizations (CROs) to collaborate, enhance trial design, accelerate recruitment and bring new therapies to market faster.

ClinicalTrials.gov

ClinicalTrials.gov is a database of privately and publicly funded clinical studies conducted around the world. The NIH mandates registration and results reporting for clinical trials funded in whole or in part by NIH.

POWERTRIALS

An application within Cerner to enable transparency between clinical research and clinical care with patient flagging within the EHR for patient safety & compliant billing purposes.

Electronic Participant Payment System that utilizes “ClinCards” to replace debit cards & petty cash. Greenphire’s web-based participant entry and visit keeping functions enable reporting.

CCTS Connects

• Clinical trial management applications are utilized by CCTS Clinical Research Support Program research nurses and study coordinators
• CCTS Informatics efforts inform Clinical Trial Initiatives like TriNetX
