

Training Academy

Center for Clinical and Translational Science

CCTS

The CCTS Training Academy offers interdisciplinary, educational programs and enrichment activities for research teams across the academic career arc including graduate and postgraduate students, staff professionals, early career and established faculty and the community. The Training Academy is continuously enhancing CCTS Training Programs and finding creative methods to deliver stellar programs conducive for success in the translational science workforce.

Training Academy Featured Programs

Translational Research Summer Series

8-week series of introductory concepts of translational research that is open to all academic and career levels.

TL1

One-year Predoctoral Clinical/Translational Research Program focused on pre-doctoral health professions.

TIERS

Monthly series focused on grantsmanship, career development, and personal wellness

KL2

Two-year Deep South Mentored Career Development Program for early career faculty.

DRIVEN

Interdisciplinary investigators collaborating to promote career development and advancement while building a diverse and inclusive research workforce.

Case Studies In Mentoring

8-week series of presentations on topics related to the nuances of the mentor-mentee relationship through case-based discussions. All sessions facilitated by experienced mentors.

New Program Spotlight

ACTION Learning uses local actors to illustrate real-life scenarios for a learning experience that covers all foci in the Training Academy
