**RESEARCH EXPERIENCE****2014-Present Predoctoral Trainee / Graduate Research Assistant**

Cancer Prevention & Control Training Program, University of Alabama at Birmingham, Birmingham, AL  
Wendy Demark-Wahnefried, PhD, RD (PI, Mentor)

NCI-funded program (R25) consisting of interdisciplinary team recruiting, supporting, and mentoring pre and postdoctoral trainees who undertake specialized curriculum tailored to disciplinary and research interests and conduct cancer prevention and control-related research.

Assist in the following research protocols:

- NCI-funded R01, Harvest for Health in Older Cancer Survivors, 426 65+ year-old survivors with loco-regionally staged cancer with  $\geq 80\%$  5-year survival and at least 1 physical function limitation recruited throughout Alabama, randomized to 1 of 2 study arms: 1) receives 1-year mentored vegetable gardening intervention that pairs survivor with certified Master Gardener; or 2) waitlist control arm that receives intervention after 1-year delay
- NCI-funded R21, Vegetable Gardening Study in Cancer Survivors, examining the feasibility of the Harvest for Health gardening intervention in older cancer survivors who have completed their primary cancer treatment
- Women's Breast Health Fund-funded, Harvest for Health, building upon pilot data to further explore possible benefits of a gardening intervention in breast cancer survivors who have completed their primary cancer treatment
- Screen, recruit participants, obtain informed consent
- Perform at-home study visits conducting tests of physical function
- Ensure data quality
- Participate in conducting research and writing for publication

**2013-2014 Graduate Trainee**

Dept. of Health Behavior, University of Alabama at Birmingham, Birmingham, AL  
Peter S. Hendricks, PhD (PI, Mentor)

Grant-funded lab conducting research in addiction, novel interventions, clinical trials, expectancies, motivation, and positive psychology.

Assisted in the following research protocols:

- NIH/NIDA-funded, Early Withdrawal Exposure with Withdrawal Regulation Training for Tobacco Dependence, which aims to pilot an in vivo early withdrawal exposure with withdrawal regulation training intervention for smoking cessation

- NIH/NIDA-funded, Who and Why Cigarette Smokers Use E-cigarettes after Hospitalization, which aims to examine cognitions and behaviors regarding e-cigarettes among patients in an urban tertiary care hospital to develop a predictive model of e-cigarette use
- Conducted original research
- Attended weekly meetings to discuss research ideas
- Prepared protocols and manuscripts

2008-2013

**Research Coordinator**

Dept. of Health Outcomes & Behavior, Moffitt Cancer Center, Tampa, FL  
Paul B. Jacobsen, PhD (PI, Mentor)

Coordinated the following research protocols:

- Multisite, NCI-funded R01, Older Breast Cancer Patients: Risk for Cognitive Decline, which examined cognitive effects of systemic cancer therapy on older women with breast cancer
- Quality of Life after Allogeneic Hematopoietic Cell Transplantation: Understanding the Patient's Perspective, which assessed how patients and their caregivers perceive their quality of life after bone marrow transplant
- Multisite, NCI-funded R01, LHRH Agonist Therapy and Cognitive Functioning in Men with Prostate Cancer, which evaluated the impact of androgen ablation therapy on cognitive functioning in men with prostate cancer

Assisted in coordinating the following research protocols:

- NCI-funded, Genetic Predictors of Cognitive Function, Depression, and Fatigue in Cancer, which explored genetic variants as predictors of cognitive functioning, depression, and fatigue related to patients diagnosed with cancer and treated with hematopoietic cell transplant
- DOD-funded, Motivational Interviewing to Promote Physical Activity in Breast Cancer Survivors, a randomized controlled trial, which examined behavioral effects of motivational interviewing over a 24-week period in female survivors of breast cancer

Managed volunteer research interns:

- Recruited, interviewed, and managed the time of undergraduate research interns

Responsibilities across all studies:

- Screened and recruited participants
- Obtained informed consent
- Coordinated appointments and research materials
- Acted as liaison between clinic and study staff
- Administered neuropsychological battery on study participants
- Consulted with clinical and laboratory staff for blood draws
- Participated in conducting research and writing for publication

2011-2012

**Field Experience / M.P.H. Internship**

Dept. of Health Outcomes & Behavior, Moffitt Cancer Center, Tampa, FL  
Brian M. Rivers, PhD, MPH (PI)

Coordinated the protocol Fishers of Men: Evaluating a Digital Training Curriculum, which trained African American prostate cancer survivors to serve as lay health advisors to disseminate culturally appropriate information regarding prostate cancer screening.

- Received qualitative research and focus group training
- Conducted systematic literature reviews
- Conducted in-depth interviews with prostate cancer survivors, medical and technological experts
- Developed training modules for online digital curriculum
- Pre-tested materials

2011-2012

**Master's Thesis**

Dept. of Health Outcomes & Behavior, Moffitt Cancer Center, Tampa, FL  
Heather S. L. Jim, PhD (Mentor)

Research protocol, Fear of Recurrence in Men Undergoing Treatment for Prostate Cancer, which identified decreased quality of life across multiple domains mediated higher levels of fear and recurrence in men receiving androgen deprivation therapy.

- Proposed topic and study design

- Completed IRB paperwork
- Carried out data collection
- Analyzed data
- Summarized findings, submitted as abstract, presented as poster

2008-2009

**Undergraduate Honors Thesis**

Body Image Research Group, Dept. of Psychology, University of South Florida, Tampa, FL  
J. Kevin Thompson, PhD (Mentor)

Research protocol, The Presence of Weight Bias in the Courtroom, which identified potential bias and contributing factors of bias present in the courtroom.

- Proposed topic before committee
- Completed IRB paperwork
- Carried out data collection
- Analyzed data
- Defended thesis

2008-2009

**Research Scheduling & Data Management Coordinator**

Team Feedback Study, Dept. of Psychology, University of South Florida, Tampa, FL  
Michael D. Coovert, PhD (PI)

Research protocol, which manipulated task feedback and work context to observe subsequent effects on teamwork processes.

- Created weekly schedules for research assistants specifying when to run experiments, transcribing and coding videos of participants, and entering data
- Resolved issues regarding scheduling conflicts
- Worked with rating coordinator to establish protocol for transcribing and coding videos

2008

**Research Assistant**

The LINK Study, Dept. of Psychology, University of South Florida, Tampa, FL  
Tammy D. Allen, PhD (PI)

Research protocol that examined behavioral and dietary effects of working parents with children enrolled in after-school care.

- Recruited 8-11-year-old participants, obtained informed assent
- Administered surveys, recorded height, weight, and body fat composition using bioelectrical impedance analysis (BIA) of participants
- Transcribed, coded, and entered data

2007-2010

**Research Assistant**

Body Image Research Group, Dept. of Psychology, University of South Florida, Tampa, FL  
J. Kevin Thompson, PhD (PI)

Conducted original research, "Fat stigmatization on YouTube: A content analysis", and assisted in weekly lab activities.

- Attended weekly meetings to discuss research ideas
- Assisted in scale development, item generation, and evaluation of face validity

2007-2008

**Intern Volunteer**

Greenwood Associates, Inc., Tampa, FL  
Janet Greenwood, PhD, CEP (Supervisor)

Research protocol, which examined parental feedback with former clients, parents of children who had been placed in away-from-home behavior modification programs, via telephone.

- Abstracted psychosocial information from former clients' files
- Located former clients' families and recruited them for participation
- Provided support as needed to troubled parents of children who had harmed themselves or others

**AWARDS**

2016 Tuition Scholarship, Center for Integration of Research, Teaching, and Learning, Graduate School, University of Alabama at Birmingham  
Travel Grant, American Public Health Association (Denver, CO), School of Public Health, University of Alabama at Birmingham

- 2015 Travel Grant, American Public Health Association Conference (Chicago, IL), School of Public Health, University of Alabama at Birmingham  
Travel Grant, Graduate Student Government, University of Alabama at Birmingham
- 2014 Travel Grant, American Public Health Association Conference (New Orleans, LA), School of Public Health, University of Alabama at Birmingham  
Educational Scholarship, Alabama Public Health Association  
Meritorious Citation for Paper Presentation, Annual Meeting of American Psychosocial Oncology Society (Tampa, FL)
- 2013 Graduate Trainee Fellowship, Department of Health Behavior, School of Public Health, University of Alabama at Birmingham  
Tuition Scholarship, Department of Health Behavior, School of Public Health, University of Alabama at Birmingham
- 2009 International Travel Grant, Office of Undergraduate Research, University of South Florida  
Meritorious Citation for Poster Presentation, Moffitt Cancer Center Annual Scientific Retreat (Tampa, FL)
