Together, we will address the unanswered questions from our previous dialogue while continuing to explore the idea of what it means to have a beloved community and explore the opportunities available to improve our overall community well-being. Remember, our most innovative and lasting solutions to enhance community well-being depends upon our citizens, government, and a diversity of organizations to unite around a common vision - a vision to work in collaboration on initiatives that makes solutions a reality.

This event is free and open to the public, all are welcome.
