On the Cover: The Class of 2013 graduated on Saturday, June 1. Also pictured are U.S. Senator Jeff Sessions, who delivered the Lister Hill Lecture, and Lauren Oester, who won the Dean's Medal for outstanding scholarship. Congratulations graduates! We wish you the best in the years to come.

Greetings,

I send you best wishes from the Sunshine State, and hope to see many of you at the ALDA meeting in June.

It is a privilege to serve as president of our Alumni Association for 2013. As a 1983 graduate of the School of Dentistry, I can honestly say that we have great reasons to be proud of our dental school! In the last thirty years, my appreciation for the value of our education has continued to expand. Although budget cuts and administrative changes have been recent challenges, under the leadership of Dean Michael Reddy, the school continues to be in the national forefront in research as well as in preparing our students to be competent practitioners. It is my hope that we all welcome our newest colleagues into this great profession and provide encouragement and mentorship as they begin new careers.

We all benefit from the continued support of our Alumni Association and I continue to be awed by the dedication of so many of its leaders. In February the Distinguished Alumnus award was presented to Dr. Lori Gearhart, who so tirelessly works to procure excellent continuing education speakers for alumni weekend. The outstanding young alumnus honored was Dr. Parrish King, who is actively involved in the Leadership Council and young alumni events. We are also very fortunate to have the talents of Scott Huffman and Charlene Phillips who both wear many hats as they continue to serve our school and our alumni association.

If you were in Birmingham for the February meeting, you know that we were able to make the best of a bad situation, and hope you enjoyed your stay at the Ross Bridge Resort. While somewhat cramped, the classes were excellent. We were even able to experience a new weekend event—the student talent show—which showcased the many varied talents of our outstanding students. We'll be back at a new and improved experience a new weekend event—the student talent show—which showcased the many varied talents of our outstanding students. We'll be back at a new and improved Wynfrey-Hyatt for the 2014 meeting, so mark your calendars now and plan to attend February 6-9, 2014. I look forward to seeing you then!

Sincerely,

Carol B. Merkle, D.M.D.
ALUMNI WEEKEND 2013 RECAP
Different Setting, but Same Fun!

The Alumni Association would like to thank all alumni and friends who attended Alumni Weekend 2013. Due to renovations at the Wynfrey Hotel, the annual event was moved to the Ross Bridge Resort and to a different weekend (Feb. 14-17). Nearly 1,700 dentists, faculty, students, vendors and guests attended courses or one of the many special events.

Continuing Education offerings included 42 hours of C.E. credit plus practice management and financial management presentations. Outside the classroom, participants had many other opportunities to interact with their colleagues, classmates, and our students. Ten different reunions were held throughout Birmingham. More than 300 people attended the Distinguished Dentist Reception on Thursday evening. On Friday evening, an even larger crowd attended the President’s Reception where raffle winners claimed prizes like vacations, jewelry, a flat screen t.v., and many other items. On Saturday evening, the inaugural student talent showcase was a big hit with alumni and students.

The meeting moves back to a modernized Hyatt Regency Birmingham – The Wynfrey Hotel. Guests will notice all new sleeping rooms and amenities in addition to refurbished meeting rooms and a new restaurant. Incredibly low room rates will be attractive to families wanting to shop the new Galleria stores. Room reservation information will be available July 1!

ALUMNI WEEKEND 2013
Thursday, February 14
Distinguished Dentist Reception

Dr. Robert Parrish King received the 2012 Outstanding Young Alumnus Award for his involvement and contributions to the dental community. (Left to right: Parrish King and his father, Dr. Bill King, Jr.)

We are currently accepting nominations for 2013 Awards. To receive nomination materials, please email Scott Huffman at shuffman@uab.edu.

All-on-4™
The efficient treatment concept with immediate loading.

Dr. Lori Gearhart was recognized by Dr. Reddy as the 2012 Distinguished Dentist Award recipient.

Everyone was all smiles at the Distinguished Dentist Reception Thursday night. Students from the UAB School of Dentistry helped attendees enter a raffle, and prizes were drawn. It was a fun night!
ALUMNI WEEKEND 2013

Alumni Weekend 2013, held at the Ross Bridge Resort, was a success. Pictured below are just a few faces that attended various events throughout the weekend.

Ten class reunions were also held during the weekend. Below are just a few shots of the classes of 1963, 1968, 1973, 1988, and 2008. If it is time for your class reunion in the coming year, contact Charlene Phillips at charlene@uab.edu for more information.

Best Wishes,

wonderful to be part of a family that works as a team! This will make us a more efficient, smarter, and stronger team. And in this state, we all know strong teams finish at the top. It’s wonderful to see many of you at the various organized dentistry meetings and throughout the year. All the groups I’ve mentioned in our strategic plan have accomplished this great feat as a team.

With a new academic year around the corner, there will be more changes, more planning, and more successes. I hope our teamwork at the School of Dentistry has made a noticeable impact as we have measurable objectives in place. In the second year of our comprehensive strategic plan, our team has come together to: ensure clinical excellence is more than a theme. It is who we are. We are working strategically to be universally recognized as the world’s best dental school. The UAB School of Dentistry is ranked #1 nationally in NIDCR funding with $12,456,763 awarded in 2012. The majority of the funding increase was through the National Dental Practice-Based Research Network under the direction of Dr. Gregg Gilbert, in the Department of Clinical and Community Sciences. The Departments of Periodontology, Oral and Maxillofacial Surgery, and Pediatric Dentistry among others accomplished this great feat as a team.

Our team approach has been embraced by our students who continually score a 100 percent pass rate on the national boards and licensure exams. Many of our student leaders have been nationally recognized this year by professional organizations for their research, leadership, and community service. I often joke that we recruit the brightest students in the world, and it’s our job not to mess them up! In reality, our faculty work very hard to prepare our students and are honored for their dedication. This year, Dr. Dan Givan received the UAB President’s Award for Excellence in Teaching. We are equally proud of the clinical demands required of our students because they will be better prepared. Our patient-centered focus serves an innovation. We can accomplish all these great things and more with a team committed to excellence. As an alumnus, you are an important part of our team!

I encourage our recent graduates to continue to be involved in the life of the school, and I ask the same of you. Whether it’s volunteering for our October 9 UAB Dentistry Cares Community Day, serving as adjunct faculty, mentoring a student, or making a financial contribution, the School of Dentistry will attain new standards of excellence because of your involvement.

With a new academic year around the corner, there will be more changes, more planning, and more successes. I hope to see many of you at the various organized dentistry meetings and throughout the year. All the groups I’ve mentioned will make us a more efficient, smarter, and stronger team. And in this state, we all know strong teams finish at the top. It’s wonderful to be part of a family that works as a team!

Best Wishes,

Ross Isbell was recognized by the American Student Dental Association as Delegate of the year for District 5 at the ASDA Annual Session in March. Isbell, class of 2014, serves as president of the UAB chapter of the ASDA. He was recognized for his involvement in the UAB chapter, as well as on the district and national levels. Isbell also serves as the student liaison for the national ASDA on the American Dental Political Action Committee.

Pictured from left to right: Ross Isbell and his father, Dr. Gordon Isbell

The UAB School of Dentistry had two winners at the 27th Annual DENTSPLY/Caulk Student Research Group Award Competition held during the IADR (International Dental Research) meeting. Maria Kuzynski won first place for her research on mineralization of odontoblastic cells in vitro, and Devon Cooper won second place for his research on antibody activity against cariogenic bacteria. The Competition allows students living in the United States to conduct his/her own research and have it reviewed by their peers. We are very proud of both Maria and Devon.

Dr. Jennifer Bain has been selected as the Volpe Prize winner for 2013. A post graduate student studying Periodontology, Dr. Bain is finalizing her PhD dissertation under the guidance of Dr. Bellis and Dr. Reddy. The Volpe Prize is given to the best clinical research in periodontology, and is open to all students studying at accredited dental schools or post graduate programs in the U.S., Canada and Mexico. Along with Dr. Bain, the UAB School of Dentistry had two of the 12 selected finalists. Dr. Mainder Kaur was also selected for his research. Congratulations, Dr. Bain and Dr. Kaur, on your achievement!

The 7th Annual UAB National Alumni Association Scholarship Run 5k/10k was held on Friday, April 26. The race helped raise $70,500 to benefit student scholarships. The School of Dentistry sponsored four dental students in the race.

Many UAB School of Dentistry faculty, residents, dental and graduate students as well as college students performing research at the Institute of Oral Health Research through the Pre-Dental Academic Research Training (PreDART) program attended the joint International Association for Dental Research (IADR)/American Association for Dental Research (AADR) meeting in Seattle, WA March 20-23. Thirty oral presentations were given by our faculty and students with an additional 57 poster presentations, a totaling 87 presentations. Many of these presentations were based on collaborative studies generated through collaborations from the National Practice Based Research Network (NPBRN) under the leadership of Dr. Gregg Gilbert.

Four students conducting research at the SOD were selected as national finalists for the student research competitions. These students were Maria Kuzynski, Devon Cooper, University of Alabama undergraduate Sam Huguley for the Dentsply/Caulk competition and Angela Gullard for the Johnson & Johnson Oral Health Products Hatton Award senior category. For the AADR Dentsply/Caulk completion Maria Kuzynski, a DART graduate student, took first place in the basic science category while second year dental student Devon Cooper placed second in the clinical science category.

A total of eight School of Dentistry students received AADR Block Travel awards to attend the meeting: dental students Jessica Nix, Jordan Scott and Sarah Syklawer; DMD/PhD students Angela Gullard and Thomas (TJ) Lucas; MS in Oral Biology student Hannah Hearl, DART graduate student Maria Kuzynski; and DART post-doctoral fellow Hope Amm. UAB SOD students garnered 16.6% of the total travel awards presented.

Two of our DMD/PhD students, Angela Gullard and Thomas (TJ) Lucas, received 2013 AADR Student Research Fellowships for $2,600 to perform research projects throughout the summer.

Associate Dean, Dr. Mary MacDougall served as President of the IADR presiding over the meeting, and her DMD/PhD student Angela Gullard served as President of the AADR National Student Research Group for 2012-2013.
The school hosted a reception for the PBRN and to celebrate the new National Practitioner Based Research Network (NPBRN) grant at the School of Dentistry funded by the National Institute of Craniofacial and Dental Research for a total of $66.8 million during a seven year period. Dr. Gregg Gilbert will lead the efforts of the NPBRN hosted at UAB. This event brought together collaborators both nationally and internationally who participate with our faculty on dental, oral and craniofacial basic science and clinical research.

Honors Convocation was held on Thursday, May 30. Six students were each awarded with scholarships, by University of Alabama School of Dentistry Alumni Association. Scholarship recipients included second year dental students Mi Young Kim, Cara McCary, and Amy Ratcliff, as well as third year dental students Eric Larson, Sonya Hallmark, and Abigail Northcutt. Henry Esham received the Alumni Leadership Award. Congratulations students!
In our state, we often compare success to our football teams. The current run by Alabama is by all standards remarkable. Three national championships in four years with another crystal ball trophy a real possibility again this year would be unparalleled. Even the great Bear Bryant had longer runs of dominance in the 1960s and 1970s, collecting three national titles in both decades.

Imagine performing at a level of excellence for 65 years! That is exactly the run your School of Dentistry has put together since opening its doors in 1948. Great leaders such as Dr. Joe Volker, Dr. Scotty McCallum, Dr. Mary Lynn Capilouto, and others were surrounded by the finest faculty assembled, spanning seven decades. Dr. Michael Reddy has continued that tradition of excellence to our current year … the 65th year. The challenges to be the best have changed, but those challenges are arguably more difficult than those of his predecessors.

Some benchmarks (or victories) are easy to measure. For example, the 2012 national rankings for NIH/NIDCR dental research dollars to dental schools were recently released. Alabama stands tall above all others nationally. The success of our students may be measured by their performance on national board examinations. The most recent results show our students are among the best, if not the best, with a 100 percent pass rate. Their exemplary scores are the norm here. It is a rare year when the pass rate falls below perfect. And what about our facilities? The continual upgrades the past 25 years have been phenomenal. Contributions from alumni and friends have ensured we will compete with the upper echelon of dental schools for many years to come. Innovations also measure success. The same school that brought you four-handed dentistry has introduced other transformational programming such as our National Dental Practice-based Research Network. For 65 years, our faculty, students, and alumni have been perennially recognized as leaders in their fields, winning too many competitions and awards to list here.

In our 65th year, we also want to recognize our supporters. Without you, the nation’s top ranked dental school might have resided somewhere else. We would like to recognize all of our donors who make a gift or pledge of $5,000 or more during 2013 to any UAB School of Dentistry Fund. You may choose to make your gift in memory of or in honor of someone; a former or current professor, a classmate, or even a mentor. Our goal is 65 alumni or friends to participate at this level in our 65 Years of Excellence. We’re already a third of the way to our goal! All participating donors will receive special recognition at Alumni Weekend 2014.

For more information, contact J. Scott Huffman, CFRE, Exec. Director of Development at shuffman@uab.edu or (205) 934-3601

Keep up the Excellence,

J. Scott Huffman, CFRE
The Alumni Association held a Birmingham Young Dentists Reception at Mix on April 19. Approximately fifty alumni and guests attended, sampled some of Chef DuPont’s finer appetizers and enjoyed socializing. Dr. Jennifer Doobrow helped coordinate the event. Dr. Doobrow, Dean Reddy and ALDA president Dr. Mike Edwards were part of the program and encouraged all young alumni to participate in the Alumni Association.

Our next Young Dentist event will be a Birmingham Barons outing on August 22.
Alumni from the Eastern Shore attended a Meet the Dean Luncheon at Southern Napa on April 4. Dr. Chris Donald of Fairhope coordinated the luncheon. Dr. Donald is the Alumni Association First District Associate Representative.

Above: Alums enjoyed great food and company at Southern Napa.
Below: The luncheon was a great opportunity to meet and get to know Dean Reddy.

Dr. Clay and Cathy Ellis hosted approximately fifty alumni and friends on May 16 at their farm in Steele, AL to "Meet the Dean". Attendees enjoyed a southern home cooked meal prepared by The Fish Market.

Dr. Mavin L. Barron

At 87 years of age, Dr. Marvin Barron has been practicing dentistry for 55 years and shows no signs of slowing down. Dr. Barron has always been very active in his community of Rainsville, AL. He is one of the most multifaceted individuals you will ever meet.

Born in 1925, Dr. Barron served in World War II and graduated with a B.S. degree from Auburn University in 1953. From there, he went on to the University of Alabama School of Dentistry where he received his D.M.D. in 1957. However, it is Dr. Barron’s career in dentistry and outstanding involvement in his community that truly distinguishes him.

Since the 1960’s Dr. Barron has served and organized in many areas of leadership for the dental community. He was the president of the Alabama Dental Alumni Association from 1974 until 1975 and served on the State Board of Health from 1973 until 1978. Dr. Barron also served as a member of the Advisory Board to the School of Dentistry throughout the 1970’s and 1980’s. Because of his leadership in these roles, Dr. Barron received the Fuller Award in 1985. In 2007, the Alabama Dental Association awarded him with a Gold Certificate for fifty years of practicing dentistry. In addition, the Alabama Senate honored Dr. Barron with a resolution for his fifty years of service to dentistry.

However, not all of Dr. Barron’s achievements were accomplished alone. He married his wife, Maxine, in 1947, and they have three children and six grandchildren. In fact, Maxine helped Dr. Barron found the Rainsville Public Library.

When speaking of Dr. Barron, Mayor Donnie Chamber said, “He’s been here a long time and has done a lot for Rainsville”.

During the past fifty years, Dr. Barron has played a major role in the progression and successes of the Rainsville community. He began in 1960 by bringing the first Scout Troop and five years later organized the Rainsville Chamber of Commerce. In 1964, Dr. Barron also organized the Rainsville Bank on Sand Mountain, where he served as president and CEO for 15 years. Beyond banking and dentistry, he served as publisher and editor of the Sand Mountain News which he started in 1968.

However, Dr. Barron’s proudest achievement is his organization of the Rainsville Housing Authority in 1963. Since then, he has served for 44 years and spent 25 years as chairman. Dr. John Anderson, who has practiced dentistry in Rainsville for 35 years, said “I would not be here if it weren’t for Dr. Barron”.

Dr. Barron has accomplished so much since he began practicing dentistry, and said he plans to continue doing so.

“I have never missed a day from work because of illness,” Barron said. “I run a mile every morning.”

We wish him the best in his future and know that he will continue to contribute to both the field of dentistry and his community in Rainsville.

* I would do it all over again and have no plans retire,” Barron said.

Class of 1999

Dr. Evelyn (Teague) Samuel married James Allen Samuel, Jr. on November 12, 2011. Dr. Samuel is the owner of Evelyn F. Teague, DMD P.C. and Teague Principles, LLC (dental practice efficiency coaching). Her husband James, a former fighter pilot, is a senior executive for the National Geospatial Intelligence Agency (NGA) Aeronautical Division. They reside in St. Louis, Missouri.

Dr. P.D. Miller Wins Gold Medal

Dr. Preston “P.D.” Miller won the Gold Medal Award from the American Academy of Periodontology. The Gold Medal Award is given annually by the Academy in recognition of outstanding contributions to the field of periodontics. Dr. Miller was given the Gold Medal Award in recognition of his leadership qualities and involvement of 44 years in the Academy. He also served as president in 2006-2007.

A graduate of the Department of Periodontology at UAB, Dr. Miller introduced the concept of periodontal plastic surgery to periodontics and founded the Periodontal Plastic Surgery Club. Additionally, he has published 28 scientific papers, contributed to four textbooks and lectured to more than 250 dental societies both nationally and internationally.

Laser-Lok® dental implants

The only dental implants proven to:
- inhibit epithelial downgrowth
- attract a physical connective tissue attachment (unlike Sharpey fibers)
- preserve coronal level bone long-term

IN MEMORIUM

Class of 1952
Dr. John DeLay Bigbie Sr., age 85, husband of Joyce Waller Bigbie, died Monday, Oct. 29, 2012, at his home. Born in Coleman, Ga., he was a son of the late Clarence Eugene and Ida Grady McLendon Bigbie. Dr. Bigbie graduated from Emory University and Emory Dental School in Atlanta. He also attended the University of Alabama in Birmingham, where he received a postgraduate special degree in prosthetics. He taught at Emory Dental School for one year before setting up private practice in Cuthbert, Ga., in 1954. He practiced dentistry there for six years before joining the United States Air Force in 1960. Survivors include his wife of 43 years, Joyce of the home; a son, U.S. Air Force Capt. John D. Bigbie Jr., three daughters, Dianne Bigbie O’Neal, Alethia Bigbie Thompson and Susan Bigbie Lofti, all of Atlanta, GA. Dr. Bigbie’s funeral was held Wednesday at Trinity United Methodist Church.

Class of 1959
Dr. Thomas Carlton Scott, 80, passed away on Monday, Nov. 5, 2012. He died at South Haven Nursing Home in Birmingham. Dr. Scott lived in Vestavia Hills and was married to Elaine Scott. A graveside service was held for Dr. Scott on Thursday, Nov. 8 at LaFayette City Cemetery and Rev. Mike Samuels officiated the service.

Class of 1970
Dr. James Robert “Jim Bob” Williamson, 67, died on Wednesday, January 9, 2013. He lived in Lilburn, GA. Dr. Williamson is survived by his wife of 44 years, Katherine Colley Williamson; son and daughter-in-law James Robert Jr. and Reilly Williamson, and their two daughters Wesley and Libby of Auburn, AL; and son Byron Colley and Emilie Williamson, and their son Jackson, of Atlanta, GA. Dr. Williamson was born in Meridian, MS on November 4, 1954. He attended Birmingham Southern College and earned his D.M.D. from the University of Alabama School of Dentistry in 1970. Jim Bob had private dental practices in Hayneville, AL and Morrow, GA before he opened his practice in Lilburn in 1973. During his career as a dentist, he served on several National Dental Association Committees and Boards as well as the Georgia and American Dental Associations. In 1998-1999, Jim Bob was selected as Hinman Dental Society President and served as the 2002 General Chairman for the Hinman Dental Meeting. A funeral was held on Saturday, January 12 at Smoke Rise Baptist Church in Stone Mountain, GA.

Class of 1972
Dr. Richard Warren Odom age 65, of Orlando, FL formerly of Starke passed away Sunday, October 28, 2012. Dr. Odom was born on May 8, 1947 in Orlando and graduated from the University Of Alabama School Of Dentistry. He was a member of the First United Methodist Church of Starke, the Keystone Heights Rotary Club, and the Starke Gator Quarterback Club. He enjoyed Gator football, Gator basketball, fishing and golf. Survivors are: daughter, Leigh Ann Watson, sons, Matthew Odom, Mark Odom, and two grandsons. Memorial services were held on Thursday, November 1, 2012 at the First United Methodist Church of Starke.

IN MEMORIUM

Class of 1963
Dr. John Christopher Mathews, Jr., 75, passed away Friday September 28, 2012 in Montgomery, AL. He is survived by his wife Susan, and their three sons: John (Beth), Sanders, and Jackson; and granddaughter, Page; and his sister, Frances Mathews Harris, Tuscaloosa. John attended the University of Alabama and graduated from Huntingdon College. He then pursued a degree in oral surgery at the University of Alabama in Birmingham and his internship and residency at Vanderbilt University in oral surgery. He practiced in Montgomery for 35 years. Flying was one of his greatest pleasures. He was an active member of the First United Methodist Church, Cornerstone Sunday School Class, Kiwanis Club, Dadaelions and the Second District Dental Society. Funeral services were held September 30, 2012.

Class of 1984
Dr. Pamela Jo Keller, 58 of Orange Park, FL, passed away Sunday, March 10, 2013. Dr. Keller was born Feb. 26, 1955, in Cullman County to Charlotte Dean Jacobs and Joseph Woodrow Jacobs Jr. She graduated from Cullman High School in 1973 and UAB as a medical lab technologist. After working a few years, she returned to the UAB School of Dentistry. Upon graduation in 1984, Pam accepted a commission as a lieutenant in the U.S. Naval Reserves and was stationed at Naval Regional Dental Center, Naval Air Station in Jacksonville, FL. In just a few years upon completion in the Naval Reserves, she established a private practice in Orange Park, FL. During her 26-year tenure, she completed specialty training at the LVI School of Cosmetic and Neuromuscular Dentistry. Survivors include her husband, Dwight David Keller, Orange Park, FL; her mother, Dean Jacobs; two sisters, Debra (Dwight) Holcombe and Joyce Echols; two brothers, Woody (Connie) Jacobs and John Jacobs, all of Cullman. In lieu of flowers, the family requests that donations be made to Greater Vision Church, P.O. Box 118, Cullman, AL 35058.
