

**Be smart when you use,
store, and dispose
of household
products.**

Did you know that the
products you use for
cleaning, carpentry,

auto repair and
gardening

can contain
ingredients that can
harm you, your family
and your
environment?

These products may
harm your children
and pets, cause
physical injury to
sanitation workers if put out for
regular trash pick-up, and
contaminate septic tanks or pollute
the ground water if poured down
drains and toilets.

**Here's what you can do to
safeguard your family,
your home and your community...**

Printed with Vegetable Oil Based Inks on 100% Postconsumer, Process Chlorine Free Recycled Paper

The average home can have as much as 100 pounds of environmentally harmful products in the basement, garage and other storage areas. **Make sure yours is safe.**

Sure, your home is clean...

but is it safe for your family?

**Be smart about using
household products!**

Always...

✓ READ the Label

Before you buy, always check the product labels.

Look for labeling that reads "DANGER," "WARNING," "CAUTION," "TOXIC," "CORROSIVE,"

"FLAMMABLE," or "POISON." These warnings tell you if the product is harmful to you, your family and the environment, and how to use, store and dispose of it safely.

Pay close attention to the labels on:

- Drain Openers
- Oven Cleaners
- Automotive Oil and Fuel Additives
- Paint Thinners, Strippers and Removers
- Grease and Rust Removers
- Glues
- Bug and Weed Killers
- Mold and Mildew Removers

✓ **KEEP** products in their original containers and store them safely away from children and pets

✓ **DISPOSE** of household products safely

Many communities hold special collection days or have special drop-off sites for harmful household products. Contact your local trash service for help, call EARTH 911 (1-877-EARTH-911), or visit www.earth911.org.

✓ TRY alternative products when available

For everyday tasks, try household products that are less harmful. Remember to follow the same rules about storing these products and never mix these products together.

- Glass Cleaner: Mix 1 tablespoon of vinegar or lemon juice in 1 quart of water.
- Toilet Bowl Cleaner: Use a toilet brush and baking soda or vinegar.
- Furniture Polish: Mix 1 teaspoon of lemon juice in 1 pint of vegetable oil.
- Rug Deodorizer: Sprinkle liberally with baking soda and vacuum after 15 minutes.
- Plant Spray: Wipe leaves with mild soap and water and rinse.
- Mothballs: Use cedar chips, lavender flowers, rosemary, mint, or white peppercorns.

Never...

✗ Pour harmful household products down a sink, toilet or bathtub drain unless the products are made for that purpose

✗ Pour products like used oil or bug killer on the ground or into storm drains

✗ Store leftover products in food or beverage containers
