

For fire or other life-threatening emergency dial 911 from any UAB phone to reach UAB Police; from your cell phone dial 934-3535.

Employees injured on the job with non life-threatening injuries should go to The Workplace for treatment. Use UAB Campus Ride for transport to and from The Workplace for the initial visit only.

When arranging transport, tell the dispatcher that you are scheduling a ride for an injured UAB Campus employee and provide the account number #7801110. For injured HSF Employees use account #7801120

Blood/Bodily Fluid Exposure

For needle sticks and/or bodily fluid exposures do not go to the Workplace or Emergency Room. Call the Rapid Response Team during business hours at 934-3675, after 5pm call 934-3411.

Building Disaster Plan

Each UAB building has a Disaster Plan. Familiarize yourself with your building's plan BEFORE you need it. Your department head or Building Administrator should be able to provide a copy of the plan.

Emergency Evacuation

If an evacuation is necessary move away from the building and assemble at your predetermined corral point for a head count.

Provision for individuals with disabilities

Stairwells are Fire-Rated and considered 'Safe Refuge' areas that are routinely checked by First Responders.

Individuals with disabilities who are above or below the ground floor should proceed to the nearest stairwell and remain until emergency personnel arrive. Any required assistance for individuals accessing the 'Safe Refuge' area should be coordinated in advance by their departments. Departments are also responsible for reporting the location of disabled or injured individuals to emergency personnel.
