

**The EPA Environmental Peer Audit Will Be**  
**March 30 – April 4**  
**Please Manage Aerosol Cans Properly**

**(They Will Even Look In The Trash)**

- ✓ Empty aerosol spray cans, that contain no product and nothing comes out when the spray valve is pressed, may be discarded in the regular trash.
- ✓ Aerosol spray cans that are not emptied completely must be manifested as hazardous waste. (Call OH&S 934-2487 to learn more)
- ✓ Please do not attempt to puncture or crush aerosol spray cans, this could cause personal injury.

**May We Also Suggest ...**

- ✓ Choose a non-aerosol pump applicator that could be refillable.
- ✓ Purchase according to demand so that the product's shelf life does not expire.
- ✓ Determine whether or not a product is even needed. Could the process using the aerosol be eliminated?
- ✓ Use only as much as is needed.
- ✓ Store aerosol containers away from moisture, sunlight, and extreme heat or cold.
- ✓ Follow the label instructions to clean the nozzle after each use.
