

The Department of Occupational Health and Safety and UAB's medical waste pick-up and treatment vendor have modified some of the campus medical waste management procedures due to regulation changes, regulatory agency mandates, and process streamlining and internal verification. Also, the changes that have been made were done so with the individuals responsible for generation in mind to reduce or have a balance neutral effect on workload. These changes do not apply to hospital pick-up location. Below is a summary of the changes:

- 1) All vendor-generated manifest tickets must display the signature of a currently trained\* UAB employee and their Blazer ID(\*BIO301L Medical Waste Management for Labs).
- 2) Anyone signing for medical waste pick-up MUST have successfully completed training every three (3) years or if regulations change. If you are not sure when you had your last training you can check your records by logging into [www.uab.edu/edtrak](http://www.uab.edu/edtrak). If you have NOT had training or your training has expired YOU MAY NOT SIGN MANIFEST TICKETS until you update your training.

IF YOU HAVE NOT HAD CURRENT TRAINING AND YOU ARE SIGNING MANIFEST TICKETS YOU ARE IN VIOLATION OF LAWS that may subject UAB to fines and penalties!

- 3) If you sign manifest tickets, which are representative of multiple containers from multiple PI's, you are verifying they are disposing of material in accordance with the regulations, (ie. an individual in a common waste holding area who signs for all waste picked up at that location should feel comfortable in taking responsibility for the entire shipment from that area.)
- 4) The contact name on the manifest ticket must be someone knowledgeable in the shipment. This can be another individual in the lab or a person in the department who knows what kind of waste is generated and who is generating it. An esoteric contact, such as "campus safety office" is not satisfactory.

The Department of OH&S has developed training and notices to keep you as informed as possible however, should you have any questions you can always contact us at 934-9181 or e-mail [kboyett@uab.edu](mailto:kboyett@uab.edu).

A vendor-generated manifest ticket with notations is shown below:
