

Knowledge that will change your world

Please keep in mind with UAB being officially closed December 23rd, 26th, 30th, and Jan 2nd, **Stericycle will not be picking up biohazardous waste from laboratories** during these days, with the exception of ARP areas.

Also, if you plan to work during UAB's official holidays, you are reminded to avoid working alone in a building; do not work alone in a laboratory if procedures are hazardous or potentially hazardous.

If you have to come in, please inform someone where you are.
