

ANNOUNCING!

UAB Department of Occupational Health and Safety's

On-line Bloodborne Pathogen Training

Do you need the training?

Do you work with human blood or body fluids (HBBF)?

Do you work with human tissue?

Do you come in contact with waste that may contain HBBF?

Do you work with bloodborne pathogens in your lab?

Do you come in contact with waste contaminated with bloodborne pathogens?

Have you been identified as an individual "at risk" for occupational exposure to bloodborne pathogens?

If you answered YES to any or all of these questions then this training may be for you!

The training is offered through the OH&S WEB site. You can participate by visiting the site (www.healthsafe.uab.edu) and following the *Training* link on the left side of the page. The name of the course is *Bloodborne Pathogens Training*. Supervisors may receive a copy of the test key by e-mailing kboyett@healthsafe.uab.edu. In the e mail's subject line type "BBP Key"(this is important). A copy of the quiz will be sent. The test can then be graded and the results kept in your employee file. **It is the responsibility of each PI to assure that their employees are trained and that a record of that training is maintained.**

If you have problems accessing the site or understanding how to proceed please feel free to e mail kboyett@healthsafe.uab.edu
