

## UAB Campus Learning System Research/Regulatory/Compliance Courses

Principal Investigators (PI), staff, and students are required to take compliance training to fulfill regulatory requirements and to prove understanding of proper practices in the laboratory. A record of training for all lab members is required to be kept on file with the laboratory in which they are working. Courses are completed through the UAB Campus Learning System.

| If You:   | You Need:   | How Often?                             |
|---|---|--|
| Work in BSL-1 or BSL-2 research lab   | Basic Biosafety Training (ID: E-5VNQVM)   | Once                                   |
| Use a biosafety cabinet, fume hood, or clean air station then strongly recommended  | Biosafety Cabinets and Fume Hoods (ID: E-XVDPV2)  | Once                                   |
| Have potential exposure to Bloodborne Pathogens or other potentially infectious materials   | Bloodborne Pathogens Course (ID: E-E04XR0)  | Annually                               |
| Work in a lab that uses chemicals   | Chemical Safety Training (ID: E-602ZWV)   | Once                                   |
| Handle, store, pack and/or manifest universal waste   | Handling, Storing, Packing, & Manifesting Universal Waste (ID: E-POWDY1)                      | Once                                   |
| Are a lab personnel then required but recommended for everyone  | Hazard Communication (ID: E-O06RQV)   | Once                                   |
| Generate, handle, pack and/or sign for the disposal pickup of hazardous chemical waste  | Hazardous Waste Handling and Packing (ID: E-6VX251)   | Annually                               |
| Handle, use, and/or transport compressed gas cylinders  | Managing Compressed Gas Cylinders (ID: E-POWEZO)  | Once                                   |
| Generate, handle, pack, and/or sign for the disposal pickup of medical waste  | Medical Waste Management for Labs (ID: E-7VR7VE)  | Every 3 years or if regulations change |
| Work with or in a lab that uses nanomaterials   | Nanotechnology Awareness (ID: E-P08WJV)   | Once                                   |
| Work with nanomaterials   | Working Safely with Nanotechnology (ID: E-N05WZV)   | Once                                   |
| Work with recombinant or synthetic nucleic acid molecules   | NIH Guidelines for Recombinant or Synthetic Nucleic Acid Molecules (ID: E-G0381J)             | Once                                   |
| Work with or around hazardous materials or objects  | OHS Personal Protective Equipment (ID: E-POYX21)  | Once                                   |
| Handle, ship, and/or offer for transport Infectious Substances, Category A  | Shipping Infectious Substances Category A (ID: E-71KDVJ)                                      | Every 2 years or if regulations change |
| Handle, ship, and/or offer for transport Biological Substances, Category B, GMOs, or Exempt Human or Animal Specimens                             | Shipping Infectious Substances Category B (ID: E-E1LZV4)                                      | Every 2 years or if regulations change |
| Are responsible for shipping or signing for a package containing dry ice  | Shipping with Dry Ice (ID: E-POWZOJ)  | Every 2 years or if regulations change |
| Are a PI applying for a Controlled Substance Use Authorization (CSUA) Number; Use controlled substances in research, teaching, or veterinary care | Use of Controlled Substances in Research, Teaching, and Veterinary Care at UAB (ID: E-E04DKV) | Once                                   |
| Use, store, or dispose of pyrophoric/water reactive chemicals   | Working Safely with Pyrophoric Chemicals at UAB (ID: E-KVO3W0)                                | Every 2 years or if regulations change |
| Work with or around sharps then strongly recommended  | Working Safely with Sharps at UAB (ID: E-Y1QWZ1)  | Once                                   |
