Dear Parents, Guardians, and Campers;

We are very happy to announce that registration is now open for the UAB School of Engineering’s 2019 Summer Camps. You may access registration documents at the link below:

https://www.uab.edu/engineering/home/summercamps

This summer, we are offering camps for advanced technologies, fundamental programming, and robotics. To register, please download the “Application Form” for each camp from the web site. You will also need to download the “Required Documents,” which include the following:

- Consent Form
- Summer Camp Rules and Regulations
- Photo Release Form
- Campus Map

Completed forms may be mailed to
Abidin Yildirim  
UAB School of Engineering  
HOEN 101  
1720 2nd Avenue South  
Birmingham, AL 35294-4440

Alternatively, you may drop completed forms off at the front desk of the School of Engineering Dean’s Office, which is located in the Hoehn Engineering Building at the corner of 13th Street and 11th Avenue South.

Please note that we will not process incomplete applications, including payment and all forms. For example, missing signatures and missing initials will disqualify your camp application(s). Please write a separate check for each camp registration.

We will process applications on a “first-come-first-served” basis, and you will be informed by email when your child is successfully registered. Registrations received after a camp is full will be added to a waiting list for each camp. Checks will be held and returned to sender at the start of camp if a camper is still on the waiting list.

Please allow three to five days for your application to be processed. If you don’t receive a confirmation email in that time, either your registration documents were incomplete or our confirmation email went into your spam folder. Therefore, make sure
that you have checked your spam folder before contacting us regarding your camp application.

The camp “Electronics in Art” (June 10-13), is a 4-day camp and will be a half-day -, from 9 A.M. until 12 P.M. All other camps will be five days, from 9 A.M. until 3 PM.

Parents are encouraged to attend an “Orientation Meeting” at the start of each camp. The purpose of meeting is to explain the rules of each camp and give parents the opportunity to meet with summer camp faculty and volunteers. The tentative date for the orientation meeting is June 1st, 2019, At the Business-Engineering Complex, which can be easily found on the map that is attached to your camp documents (see Summer Camp Required Documents).

If you need to cancel your registration prior to May 5th, 2019 please send an email to yildirim@uab.edu for a reimbursement of your payment(s). No reimbursements will be given for cancellations after May 5th, 2019.

Dear Campers;

We designed these camps to make learning enjoyable and fun. We believe that we all learn best when we are building or experimenting in a fun and exciting environment. During these camps, we hope you will learn technical skills while also making new friends and building long-lasting relationships.

According to the class plan, you may work in groups; however, we will keep the number of team members as small as possible. In order to make our camps fun for all, we must work together, help each other, and respect each other. We expect all campers to cooperate with the instructors and helpers and obey camp rules without any exception. Disruptive or disobedient behavior by any camper will not be tolerated.

We hope you will enjoy your camp at the UAB School of Engineering, and we look forward to providing experiences that will excite you and motivate you to be a great engineer in the future!

Welcome to UAB!
Go Blazers!

Dr. Abi Yildirim,
Director of Outreach,
UAB-School of Engineering
