

### Final Semester Registration Adjustment

Graduate Biomedical Sciences (GBS) requires all students to register for 9 hours per semester for a total of 27 hours per academic year. Diversity and International Grant students are expected to register for 32 hours per year. GBS recommends registering for 10 hours in the fall, 12 hours in the spring, and 10 hours in the summer term for those students.

**Extenuating circumstances above or below 9 hours must meet prior approval by the GBS office, theme directors, and mentor before the GBS registration deadline.**

For students entering their term of graduation, the students' registered hours are dependent on their plans following the defense date. Complete the following form detailing your plan to graduate. Once your plan is approved, the GBS Curriculum Manager will determine the number of hours required for registration.

Student Name: \_\_\_\_\_ Date: \_\_\_\_\_

Mentor Name: \_\_\_\_\_ Theme: \_\_\_\_\_

Defense Date: \_\_\_\_\_

Do you plan to continue working in your lab through the entire semester?      YES      NO

If no, please indicate the date that you plan to discontinue and end your stipend: \_\_\_\_\_
