- Collaboration between Enrollment Management, University Relations, Graduate School, and Academic Programs
- <https://www.uab.edu/degrees/>

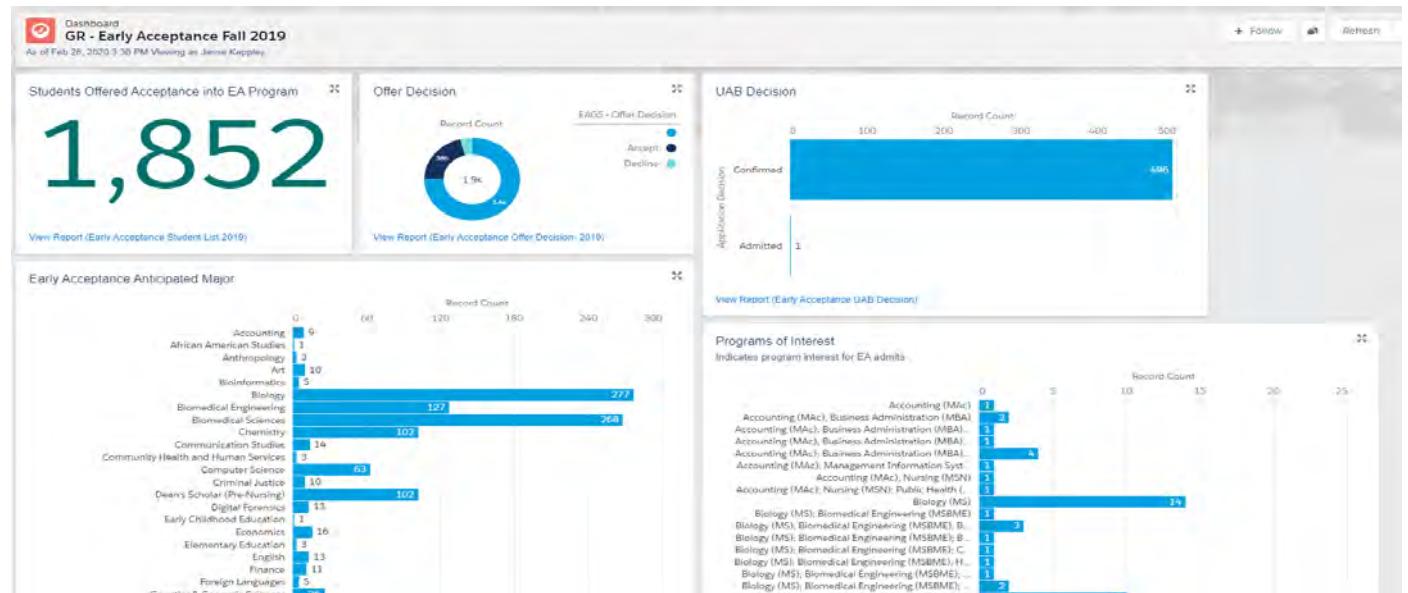

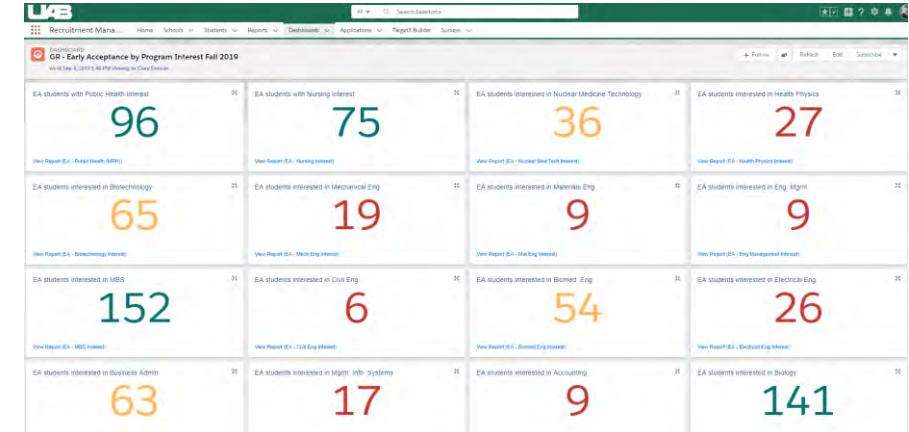

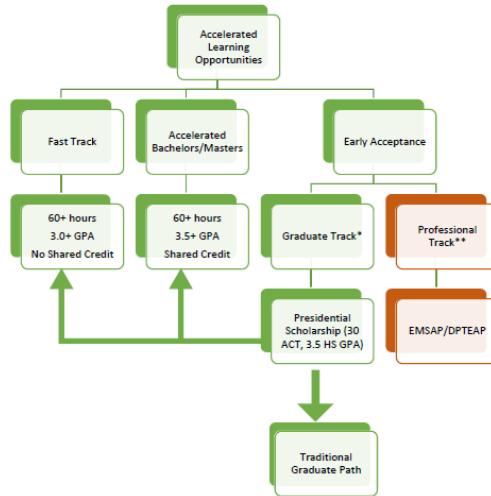

The screenshot shows the homepage of the UAB Degrees website. At the top, the UAB logo and the text "THE UNIVERSITY OF ALABAMA AT BIRMINGHAM" are visible. Below this, a large green banner features the text "find your degree at **UAB.**". Underneath the banner, a section titled "HOW TO CHOOSE A PROGRAM OF STUDY" contains a paragraph about using the site to find related programs. A search bar with the placeholder "art, healthcare, engineering" and a "view all degrees" button are present. The "DISCOVER YOUR CAREER PATH" section includes a paragraph and a grid of twelve icons representing various fields of study and interests. At the bottom, a section titled "THE COMPLETE LIST" offers a list of programs with filters for undergraduate, graduate, minors, and online options, and a table showing program details by college/school.

Program	Undergrad	Graduate	College/School
Accounting	B.S.	M.A.C.	Collat School of Business
Administration/Health Services		Ph.D.	School of Health Professions

Withdrawal Updates

Recommendation *New Policy Implementation*

To alleviate the misuse of Medical Withdrawals while offering students access to **full term withdrawals**, a Task Force was implemented to develop a plan of action to benefit students and the university.

Recommendation: 3 Part Policy Implementation

Recommendation

Part I: Full term withdrawal

Develop a **full term withdrawal date** up to the last day of classes.

- Students could withdraw from **all** courses up to the last day of class and receive “w”
- This withdrawal would be for all coursework, not individual courses
- 72 hour wait period so University has a chance to intervene

Recommendation

Part II: Tuition Reimbursement

Implement a graduated refund policy that governs all withdrawals.

Note: Appeal process exists for extreme circumstances

Spring 2020 Dates

Jan 13	Classes Begin
Jan 13 - 21	Registration After Classes Begin
Jan 20	Martin Luther King Holiday
Jan 21	Last Day to Drop/Add (Without paying full Tuition & Fees)
Jan 21	Last Day to Submit Undergraduate Application for Degree
Jan 27	Last Day for full-term withdrawal for 75% refund. (Must withdraw from all courses)
Feb 10	<u>2nd Payment Deadline for Blazer Flex Plan</u> Failure to meet payment deadline results in assessment of \$50 late fee.
Feb 10	Last Day for full-term withdrawal for 50% refund. (Must withdraw from all courses)
Feb 24	Last Day for full-term withdrawal for 25% refund. (Must withdraw from all courses)
Mar 9	<u>Final Payment Deadline for Blazer Flex Plan</u> Failure to meet payment deadline results in assessment of \$50 late fee.
Mar 13	Last day to withdraw from a course with a grade of "W"
Mar 16 - 22	Spring Break
Apr 24	Last Day of Class
Apr 24	Last Day for full-term withdrawal. (Must withdraw from all courses)
Apr 25 - 26	Undergraduate Reading Days
Apr 27 - May 1	Final Exams

Recommendation

Part III: Medical Withdrawal Policy

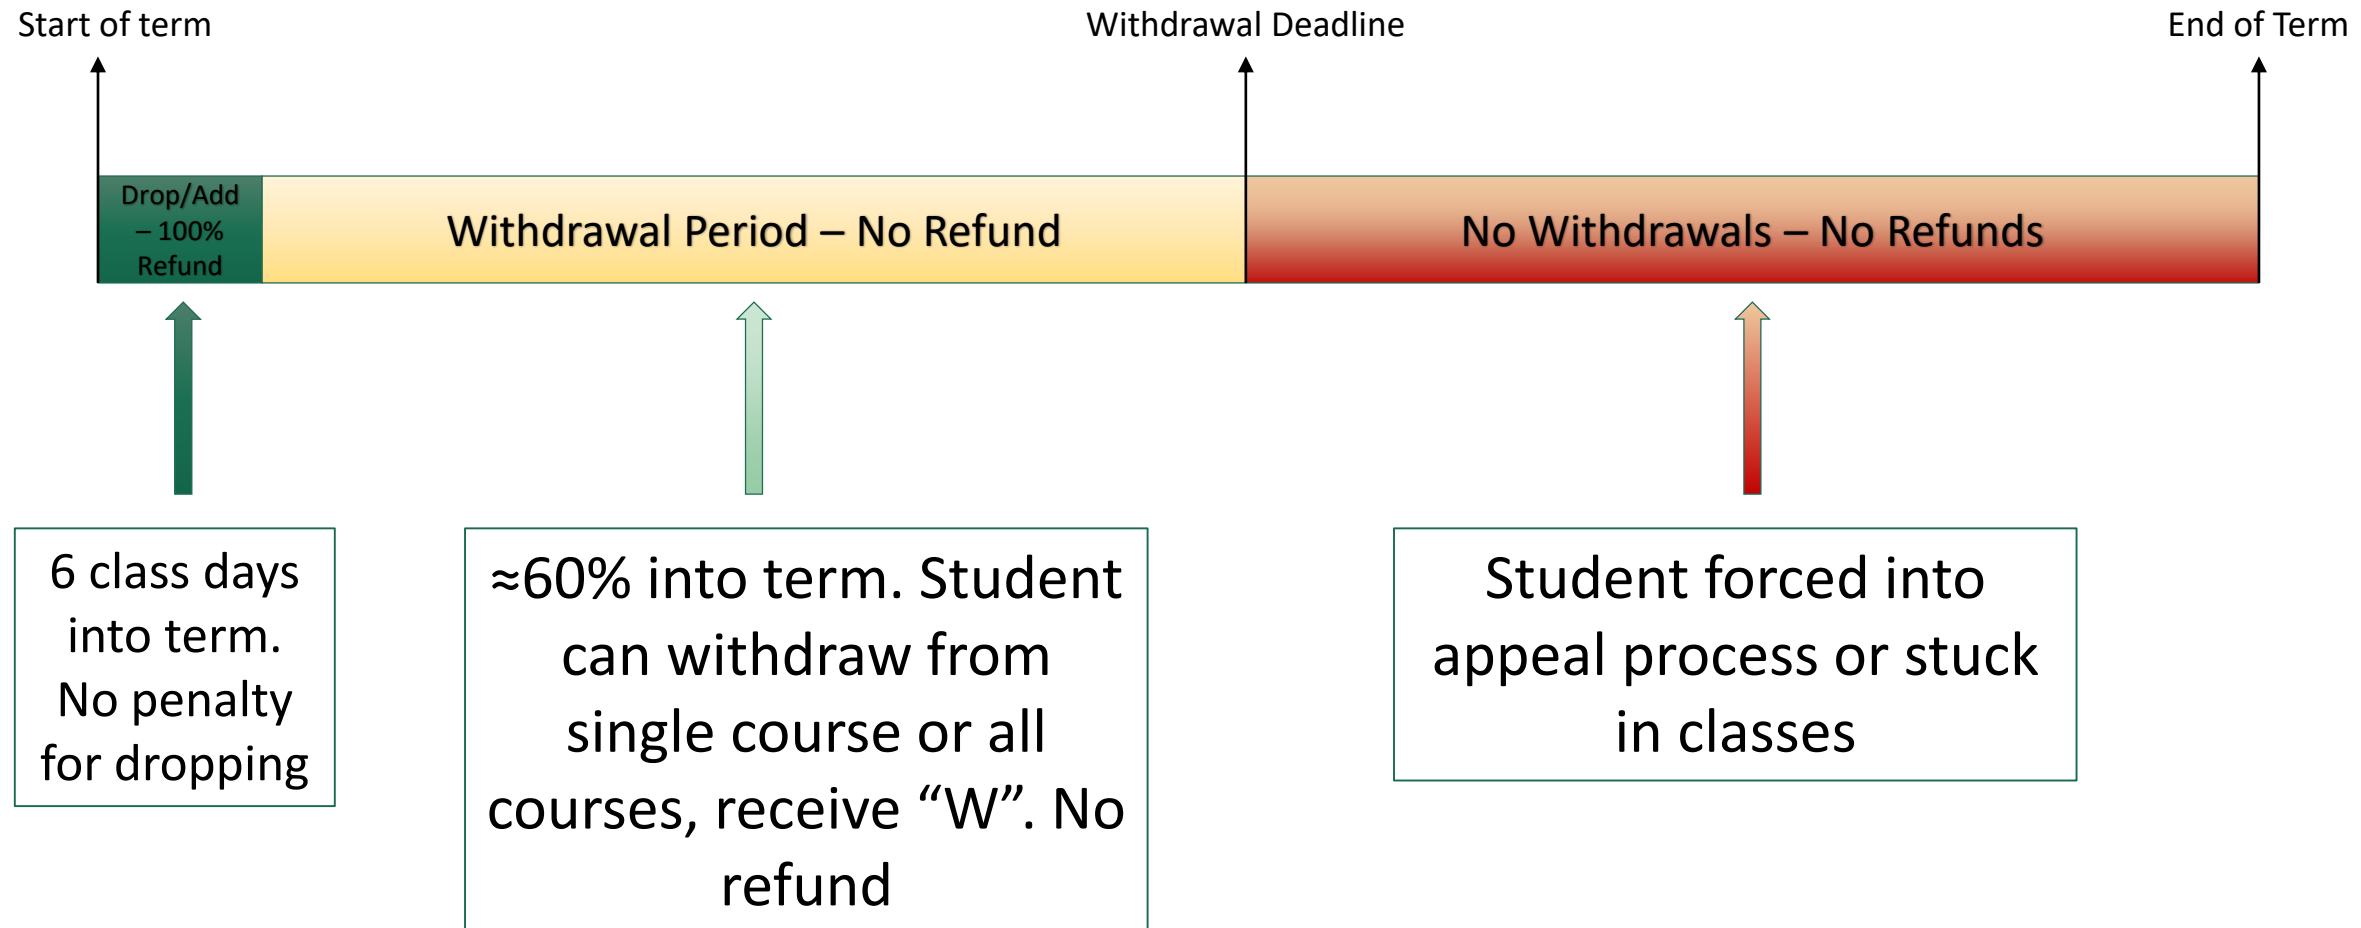

Implement a Medical Withdrawal Policy to address medical and **post-term** withdrawal requests.

Must be submitted 60 calendar days from last day of classes.

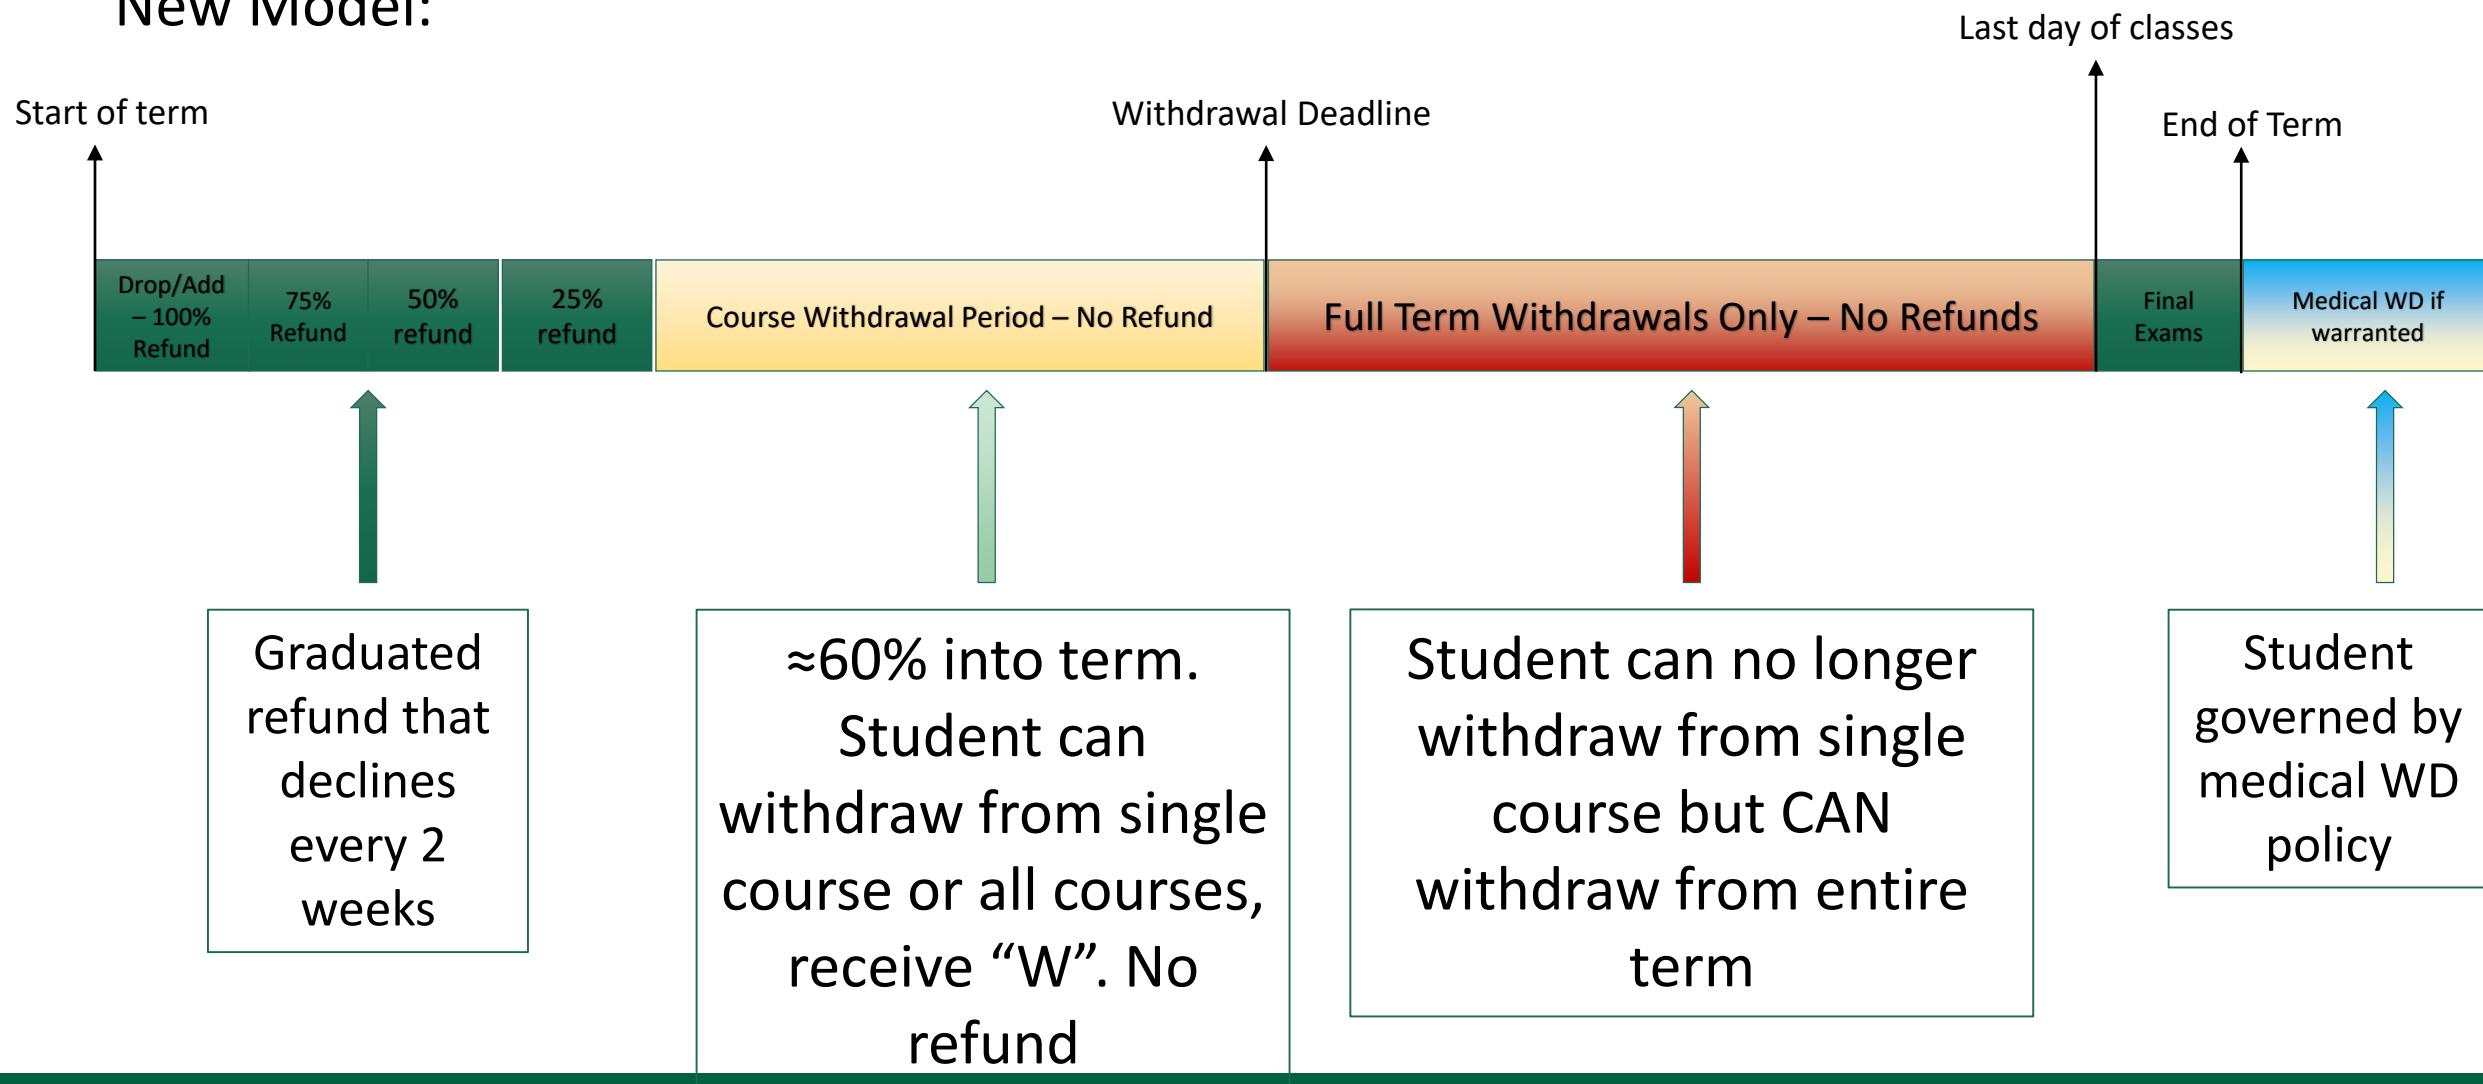

Policy in Action

Former Model:

Policy in Action

New Model:

Outcome of Policy Change

- Offer students opportunity to fully withdraw at any time with “w” prior to the last day of classes
- Become more aligned with peer and near-peer institutions (graduated refund process)
- Centralize University Wide Medical Withdrawal Policy
- Place time limitation of Medical Withdrawal Submissions
- Eliminate ability to medically withdraw from single course (in most cases)

Withdrawal Outcomes

20

- Fall 2018: 84 full-term withdrawals
- Fall 2019: 92 full-term withdrawals
- 7 cancelled withdrawals
- 1 appeal reviewed by Tuition Appeal Board
- Policy library:
 - Full Term Withdrawal and Refund policy: <https://www.uab.edu/policies/content/Pages/UAB-UC-POL-0000811.aspx>

Roadmap 2020

| 22

- Continue to migrate forms into BlazerNET
 - Request to Defer Admission
 - Non-Degree Policy Acknowledgement
- Revamp Graduate Faculty review process (more on this later)
- Enterprise-wide CRM (more on this Wednesday)
- Expand Accelerated Learning Opportunity options for students
- Revamp and simplify Grad School admissions site
 - Benchmark peer institutions
 - Easier to navigate (less clicky!)
- Increase recruiting
 - Graduation Emails
 - ALO Emails
 - Recommender Emails
 - Prospect scoring

Master of Art & Master of Science Interdisciplinary Studies

Full proposal presented to UAB Graduate Curriculum Committee
November 2019

Approved by Board of Trustees
February 2020

The University of Alabama at Birmingham

Introduction: The Problem

- Local, State, and National reports indicate that employers seek candidates with advanced knowledge and competencies that span across disciplines for hybrid jobs.
 - Burning Glass, Governor's Office, AL DOL, US DOL Bureau of Labor Statistics
 - Hybrid jobs are trending up in growth, pay, and stability.
- Traditional post-baccalaureate education programs specialize in one discipline and are not meeting work-force needs for contemporary careers in the dynamic, global, and technological economic markets.

Purpose

The Interdisciplinary Graduate Studies Program is designed to:

- provide advanced education and training for learners who will benefit from combining two areas of specialization required for career advancement or transition,
- support local and state-wide efforts to bolster economic development, and
- provide non-traditional graduate students an entrée into graduate studies.

Requirements

In order to complete the MA or MS in IGS learners must complete (page 10):

1. Two Class A Graduate Certificates

- Coherence, learning outcomes, academic rigor, and assessment

2. A minimum of 30 graduate credit hours with a “B” or better,

3. GRD 690: Capstone

- Public or broadcasted presentation of an issue within career field and plan of action demonstrating learners' mastery of associated literature and ability to apply content knowledge.
- Theory, Research, Practice

GRD 690: Capstone Course

Because a primary objective for the Interdisciplinary Graduate Studies program is to prepare learners to thrive in contemporary careers, the Capstone Course is designed as a research to practice experience that requires learners to display:

1. Literature Review and Action Plan
 - Written communication skills
 - Critical thinking skills - synthesis
2. Public dissemination of final paper including advising committee
 - Oral communication skills
 - Professionalism and work ethic
 - Working with others
3. Organization and leadership for field of study

MA & MS in IGS

Admission to the Interdisciplinary Graduate Studies Program requires students to:

1. be admitted to both certificate programs they seek to complete. Certificates will be chosen from a list, and
2. meet with IGS Program Director to finalize a degree plan.

Degree plans will be reviewed and approved by an Interdisciplinary Graduate Studies committee.

EXAMPLE PLANS

- A learner seeking advanced education for their position within a non-profit community health organization
 - Complete the Nonprofit Management graduate certificate
 - Complete a Public Health graduate certificate
 - Complete GRD 690: Capstone Course – Theory to Practice
- A learner seeking knowledge and skills needed to develop curriculum for a global health organization
 - Complete the Post-Master's Certificate in Instructional Leadership
 - Complete the Global Health Studies graduate certificate
 - Complete GRD 690: Capstone Course – Theory to Practice
- A learner seeking advancement in a social media firm.
 - Complete the LEAD: Leadership and Professional Development graduate certificate
 - Complete the Social Media graduate certificate
 - Complete GRD 690: Capstone Course – Theory to Practice

Graduate Faculty Status

Current Definitions

| 32

- Level I
 - UAB faculty appointment
 - Serve on thesis and dissertation committees
- Level II
 - UAB faculty appointment
 - Serve as mentor and/or committee chair
 - GRD 717 facilitator
- Ad Hoc
 - Typically not UAB faculty
 - Serve on individual student's committee

Current Process

- Letter of nomination from Chair
- Recommendation for Appointment form
- Applicant's CV

RECOMMENDATION FOR APPOINTMENT TO GRADUATE FACULTY

(PLEASE TYPE)

This form, along with a letter of nomination and a current CV, should be sent via email (as a single PDF attachment) to juanitrap@uab.edu (see complete submission instructions at <http://www.uab.edu/graduate/gradfaclist>)

Limitations

35

- Can take a long time
- Not in Banner
 - Not reportable/viewable to other users across campus
- Lack of consistent tracking and data entry
 - Opportunities for errors
- Becomes outdated quickly
 - No mechanism to update when faculty leave or retire
 - Delay between approval and updating list on website

Data Cleanup

36

- Currently benchmarking existing Graduate Faculty list (1,700+ faculty)
 - Earliest active approval = 1979
 - When was approval?
 - Do we have documentation?
 - Review process to renew status and cleanup of existing list
 - Expect Graduate School to contact your department to verify active status

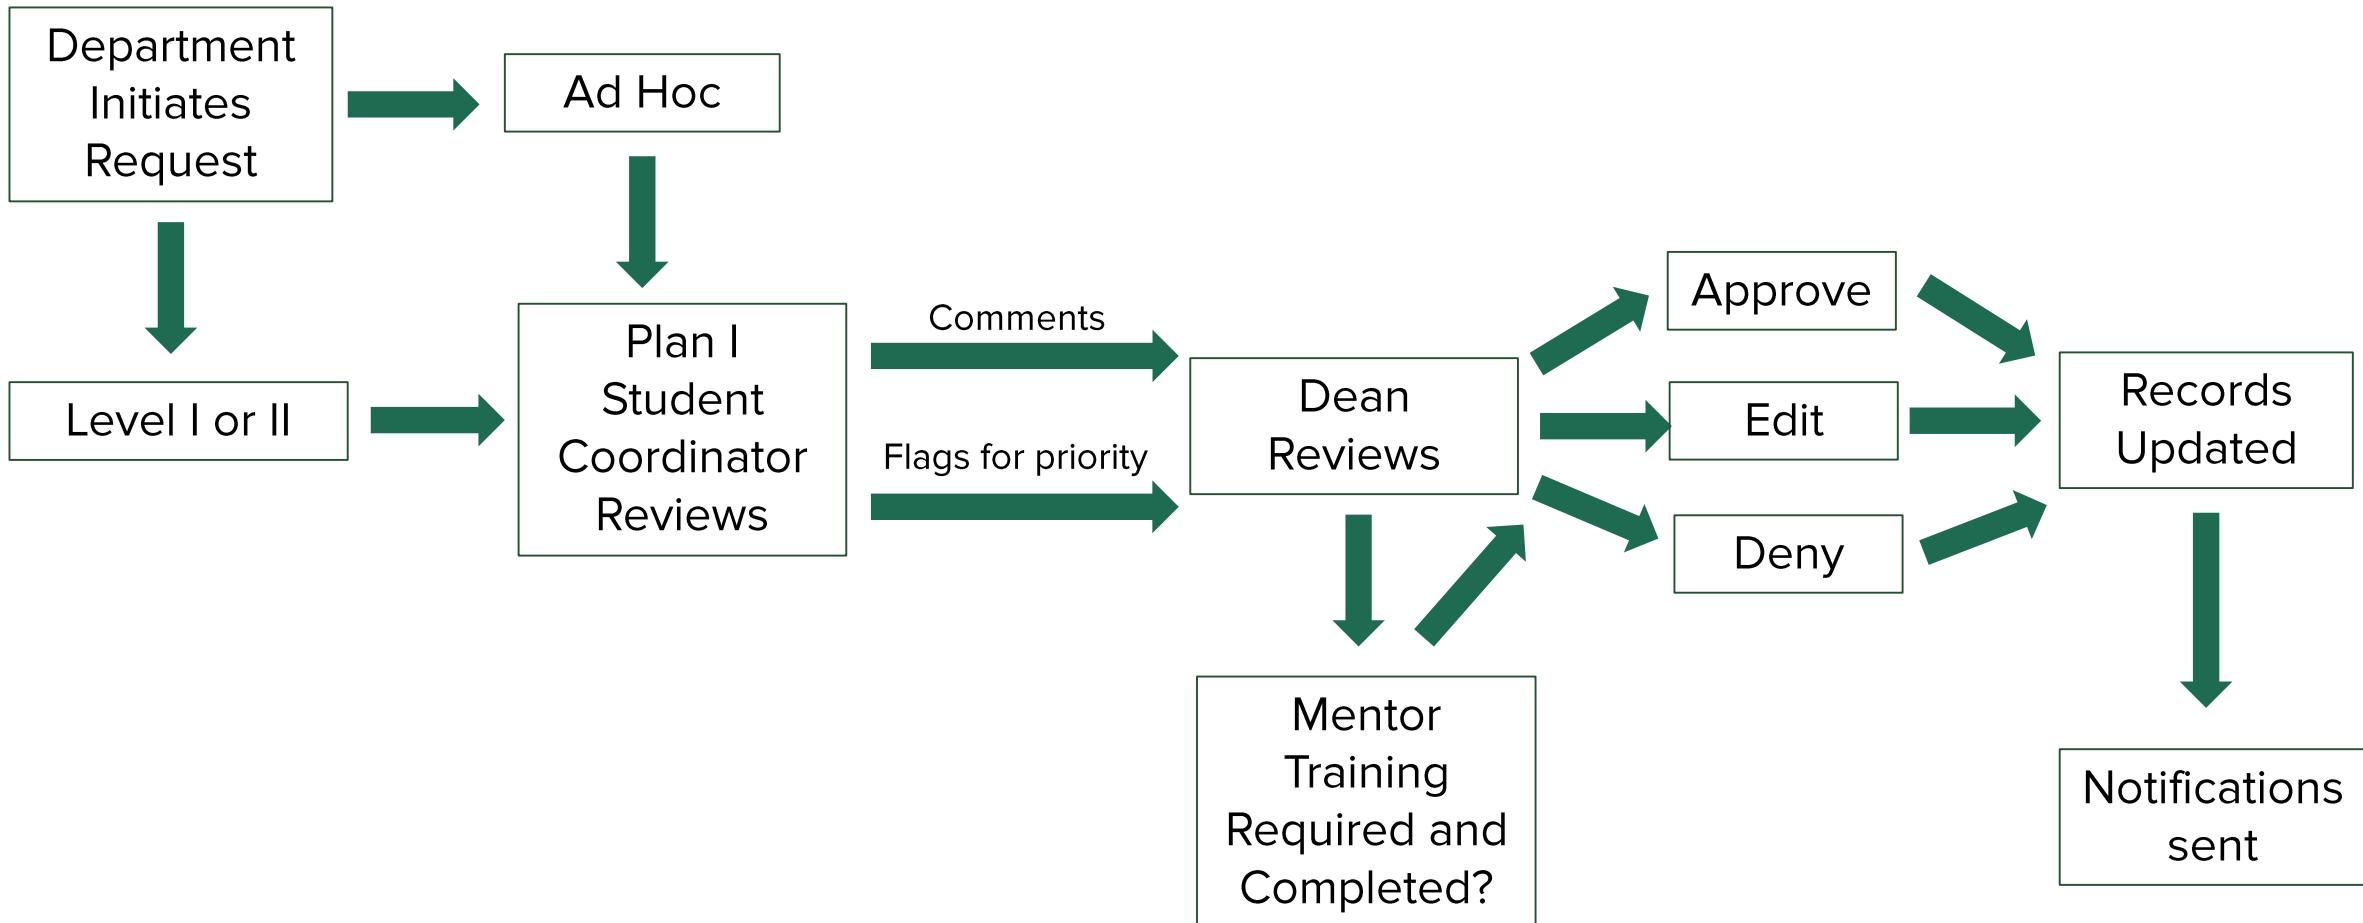

Transition from Spreadsheet to Banner

37

- Collect and approve requests via BlazerNET
- Feed information into Banner
 - Reportable
 - Consistent
 - Real-time maintenance (records would stay up to date)
- Automatic notifications to relevant stakeholders
 - Not just faculty and department, but also HR, Institutional Effectiveness and Analysis, Plan I Student Coordinator, Senior Systems Analyst, etc.
- Sync with Oracle so as assignments end we are notified

Program Director Workshop Spring 2020

Wednesday, March 4th

Catalog Changes – Admission to Candidacy

41

Previous Wording

If a student's research involves human or animal subjects, approval from the IRB or IACUC must be documented before admission to candidacy can be approved. IRB/IACUC approvals must be kept current until the research is completed. For ways in which students can be added to a protocol, refer to the [Tip Sheet for Students Involved in Research Involving Human or Animal Subjects](#). The IACUC form must display the appropriate research protocol number.

New Wording

In general, if a student's research involves human or animal subjects, approval from the IRB or IACUC must be documented **before** admission to candidacy can be approved. Certain programs may have national accrediting or curricular requirements that necessitate admission into candidacy prior to seeking IRB/IACUC approval. For these students, IRB or IACUC approval must be submitted in order to register in a subsequent semester. IRB/IACUC approvals must be kept current until the research is completed. For ways in which students can be added to a protocol, refer to the [Tip Sheet for Students Involved in Research Involving Human or Animal Subjects](#). The IACUC form must display the appropriate research protocol number.

Admission to Candidacy Rationale

42

- IRB/IACUC approval are requirements of the Office of the Vice President for Research
 - Program structure of select programs (particularly in School of Education) require students to complete portion of dissertation prior to seeking IRB approval.
 - Align with peer institutions with similar programs

Catalog Changes – Committee Membership

43

Previous Wording

Traditionally, graduate study is highly flexible and individualized. A specific plan of study should be developed as soon as possible upon matriculation. Graduate study committees, often chaired by the student's advisor, are appointed to guide the student toward their degree. Some graduate programs do not use a graduate study committee for Plan II students, particularly when flexibility in the course of study is limited by accreditation and other external constraints. Graduate study committees should consist of at least three Graduate Faculty members, each of whom must have credentials equal to or exceeding that of the degree that the student is pursuing, must have been approved by the Graduate School Dean for Graduate Faculty status, and should be able to contribute some relevant insight and expertise to guide the student. In addition, one committee member should be from outside the student's graduate specialization.

New Wording

Traditionally, graduate study is highly flexible and individualized. A specific plan of study should be developed as soon as possible upon matriculation. Graduate thesis committees, often chaired by the student's advisor, are appointed to guide the student toward their degree. Some graduate programs do not use a graduate thesis committee for Plan II students, particularly when flexibility in the course of study is limited by accreditation and other external constraints. Graduate thesis committees should consist of at least three Graduate Faculty members, each of whom must have credentials equal to or exceeding that of the degree that the student is pursuing, must have been approved by the Graduate School Dean for Graduate Faculty status, and should be able to contribute some relevant insight and expertise to guide the student. In addition, one committee member should be from outside the student's graduate specialization. **Graduate thesis committees cannot be comprised of faculty who are related to each other, the student, or otherwise fall under the Family or Household Member designation as defined in UAB's [policy on nepotism](#). Exceptions to this policy must be requested by the student and approved by the Graduate School Dean.**

Committee Membership Rationale

| 44

- Committee Members who are related to the student and/or each other can conceivably constitute a conflict of interest
- HR has clearly-defined definition of relationships that fall under the umbrella of nepotism
- Recognize that sometimes research interests or expertise necessitate exceptions to this policy, but empower the student to initiate that request

Catalog Changes – Commencement

45

Previous Wording

None

New Wording

UAB holds a semesterly commencement ceremony at the conclusion of each Fall, Spring, and Summer semester. Students may participate in the ceremony that corresponds to their graduation term. Requests to attend a ceremony outside of a student's graduation term must be made in writing to the Graduate School, and will be reviewed on a case by case basis by the Graduate School Dean. Commencement information is available [here](#) and students may indicate their attendance in BlazerNET.

Commencement Rationale

46

- Unclear process on who approves requests to walk early/late
- For undergraduates, Provost Office approves
- For graduate students, Grad School will review and approve exceptions
- Students are highly encouraged to attend the ceremony corresponding to their graduation term, but unforeseen circumstances sometimes warrant changes
 - Typically medical, travel, etc
 - Goal is to minimize exceptions for planning purposes

Catalog Changes – UG Enrollment in GR Certificates

| 47

Previous Wording

None

New Wording

Some certificates may open enrollment to undergraduate students on a case by case basis, allowing students to potentially complete a graduate certificate at the same time they earn their undergraduate degree. Enrollment in a graduate certificate is not permitted until the student has earned at least 60 undergraduate hours, 36 of which must have been completed at UAB, with a 3.0 institutional GPA. In addition to academic standing requirements administered at the undergraduate level, once admitted, students must maintain a 3.0 in all graduate coursework.

Awarding of a graduate certificate is contingent upon a student completing all requirements of their undergraduate degree, and cannot be awarded until these requirements are met.

UG Enrollment in GR Certificate Rationale

48

- Juniors/Seniors often have free elective space in their program and seek educational opportunities at the graduate level, including certificate programs
- Some certificates are getting approved with clear admission requirements for UG students, but no Grad School minimums exist for those that didn't
- Designed to mirror the requirements for a Fast-Track student

Catalog Changes – Graduate School Appeals Board

49

Previous Wording

A. Purpose:

The purpose of the GSAB is to review appeals brought by graduate students of decisions made by university representatives concerning:

retention in graduate programs,

charges of academic misconduct or dishonesty,

selected other issues related to graduate education as deemed appropriate to forward to the GSAB by the Graduate Dean, the provost, or other university officials.

B. Limitations:

The GSAB will not review:

appeals of course grades,

appeals of a dismissal based on lack of adequate progress toward meeting degree requirements,

appeals for which the student has not previously fully used all other applicable appeal or review processes,

appeals filed more than 30 calendar days from the date of a prior review or 30 calendar days from the date of receiving notification of an action or decision,

misconduct in research which falls under the Policy Concerning the Maintenance of High Ethical Standards in Research and Scholarly Activities.

grievances brought against the faculty of a specific program. Program faculty report to the chairpersons and deans in the schools in which they hold their primary appointments. Accordingly, it is the responsibility of those chairpersons and deans to adjudicate at the school level any appeals brought by graduate students against their faculty. Decisions made at the school level in such cases will not be reviewed by the Graduate School Appeals Board.

grievances or appeals brought forth by masters (Plan II) students in professional/practice-based programs. These will be adjudicated exclusively within the school in which the program is housed. Any questions related to whether a program is considered professional/practice-based should be referred to the program's director.

New Wording

Removed from Catalog. Moved to GBS handbook

Too similar to existing appeal process outlined in Academic Progress section of catalog

- Student appeal process regarding grades and academic misconduct is already outlined in the catalog
- GSAB was developed primarily to serve GBS students, who don't have a normal appeal channel through the School
- Programs/Students were not clear what could be heard by GSAB
 - “Retention in graduate programs” vs “appeals of a dismissal based on lack of adequate progress toward meeting degree requirements”
 - Issue of School vs GSAB

Academic Standing

51

- 3.0 GR-level GPA
- 2 terms of probation
 - Spring 2020 grades post, student would “roll” to P1 but still have 2 terms to return to good standing
 - Does not count terms where student is not enrolled or ONLY enrolled in P/NP courses
- 1 extension is possible if program is supportive
 - Plan must be specific and must be feasible for student to return to Good Standing
- Not dependent on program GPA
 - Student may be below a 3.0 in your program, but still in Good Standing, or vice versa.
 - Student may be dismissed from your program but still in Good Standing with Graduate School
 - Student DOES need to have a 3.0 Graduate level GPA and 3.0 Program GPA to graduate

Tips to Return to Good Standing

52

- Grade Replacement:

https://www.uab.edu/graduate/images/documents/resources/current_students/forms/grade-replacement-request.pdf

- Maximum of 2 times, and only once for any individual course
- Cannot be used for cases of academic misconduct
- Not all programs allow

- UAB GPA Calculator:

<https://www.uab.edu/students/academics/gpa-calculator>

- Good tool for developing a probation extension plan with your students

Say It In 6 Winners Announced at Wednesday Night Reception
Tell us your story in six words. That's what the UAB campus community was challenged to do for UAB Graduate School's fourth annual Say It In 6 competition. Participants submitted an image and six words depicting any story they wanted to tell—about their life, their experiences, things they love or have learned. And the submissions were amazing!
