Stewardship

Stewardship, one of UAB's shared values, is the fiscal and environmental sustainability which guides our decisions. This includes the careful and responsible management of our time and money.

The last Town Hall Meeting highlighted the importance of stewardship in the current climate. Below are some things to consider.

CALL TO ACTION:

- Discuss stewardship, resources and change with your team.
- Take a deep dive and think about how you can collaborate better. Is there room for improvement with current procedures?
- Think about your own work performance. Are you making the best use of your time, energy and resources?
