

Appoint, Change, Terminate (ACT) Documentation Budget Document

The **Budget** document reason is **ONLY** used when processing salary increases during the annual budget period; the **Budget** document reason is only available during the annual budget period. This document type was created to “speed up” the approval process during the budget period by creating fewer approvers. However, this depends on how the Workflow Officer has set up the approval list for this document type.

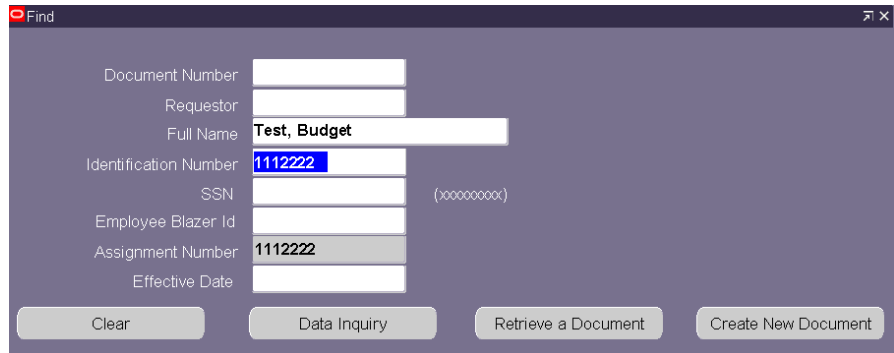

The **Budget Document Effective Date** will be determined by the University, based upon the upcoming fiscal year. The Office of the Provost annually distributes salary and effective date guidelines; as well as, guidelines to assist with any exception letters that may be needed for salaries that exceed the established guidelines.

The **SALARY** form is the only required form to be completed when processing a Budget document; however, the **LABOR SOURCES** form is also available.

Warning: Once the Budget ACT Document has entered COMPLETE status, Funding Source Change ACT Documents with an effective date prior to the Budget Document Effective Date are prohibited.

Changing Funding Sources:

Below are guidelines to consider when making funding changes on the Budget document:

- The **BUDGET DOCUMENT EFFECTIVE DATE** *must be a future pay period*.
- When using a **retroactive** DOCUMENT EFFECTIVE DATE (a date in which the payroll has already processed), the **LABOR SOURCES** form is available for change; however, the **actual** effective date of the labor source change will default to the current available pay period. *In order to correct labor sources or distributions for past pay periods, a Salary Reclass document must be processed.*
- If changes to the **LABOR SOURCE** form are to take place **prior** to the **Budget Document Effective Date**, a **Funding Source Change Document** must be submitted and approved **before** creating the Budget document.

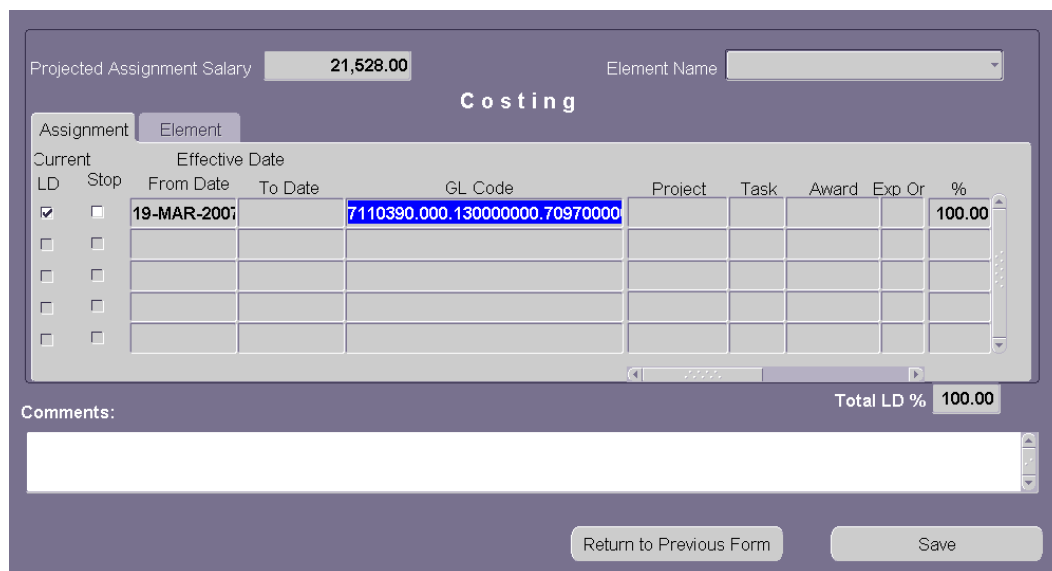

Once an employee's Budget document has entered "COMPLETE" status, a Funding Source Change Document with a document effective date prior to the Budget Document is prohibited.

1. If the labor sources are changing for an employee, click on the **LABOR SOURCES** button on the **ACT MAIN FORM**.

The 'Labor Sources' button is circled in red. Below the navigation bar are buttons for Save, Submit, Cancel this document, Log, Reassign, and navigation arrows.

2. The **LABOR SOURCES** form opens.

The screenshot shows the 'LABOR SOURCES' form. At the top, there is a 'Projected Assignment Salary' field with the value 21,528.00 and an 'Element Name' dropdown. The 'Costing' section contains a table with columns: LD, Stop, Effective Date, GL Code, Project, Task, Award, Exp Or, and %. The first row is selected, showing a GL Code of 7110390.000.130000000.70970000 and a percentage of 100.00. Below the table is a 'Comments:' field and a 'Total LD %' field with the value 100.00.
