The New Hire ACT document reason is used to appoint new employees who have never been affiliated with UAB in an active employee, trainee or volunteer status in the past.

The information entered on the New Hire document provides the data needed for the employee to be paid. It also creates the official personnel record for that individual. While it may seem to be a rather lengthy process, much of the data is used for reporting throughout the University and to external agencies. Therefore, providing as much data as possible and ensuring its accuracy is important. It is recommended before starting this procedure, you have all of the relevant information in front of you, and that you complete it in sequential order.

Instructions for completing each form on the New Hire Document can be accessed by clicking on the section listed below or scrolling through the document.
