**ENGLISH**

*Placement test required by this Department; call 934-5503 for appointment.*

If a student’s first language is NOT English and he/she is not eligible for EH 101 based on ACT/SAT scores, the student is required to take the English as Second Language Placement Test (see page 10). A student who places in ELC 092 or ELC 093 (Academic Writing for Non-Native English Speakers I or II) must complete the required courses (see course listings on page 112) with a “C” or better to be eligible for EH 101.

EH 101: Students enrolled in English 101 must be present on the first day of class to retain their place in the class. Students must meet minimum requirements of the English department in order to register for EH 101, specifically ACT English and Reading scores of 20 or better, or if the ACT requirement is not met, the student must pass the English Placement test. EH 101 classes taught in HB 231 or HB 227 will use computers.

**NOTE: The instructor's signature is required to add courses during the drop/add period.**

Biology

The Biology Department reserves the right to cancel any lecture sections with fewer than 10 students or lab sections with fewer than 15 enrolled. Students who register for a laboratory section that conflicts with other classes or work should not expect to be able to change sections when classes start. Students who miss the first laboratory session may not expect to be able to change sections when classes start. Students will not be allowed to change or add laboratory sections without the signature of the instructor or laboratory coordinator beginning the first day of class. Labs will begin the week of June 5, 2006.

**NOTE: All Biology courses that have required associated laboratories will require a signature of the laboratory coordinator to add the class beginning the first day of classes. No one will be added to a class, even if it has not yet met, without the proper signature.

All chemistry labs will begin the first full week of classes for the Summer term 2006. This is the week beginning on Monday, June 5, 2006. A copy of your registration form must be presented to your lab instructor during the first lab session in order to check in and perform the first experiment. The Chemistry Department reserves the right to cancel any lecture or lab section that conflicts with other classes or work will not be able to change sections after classes start. Students who miss the first laboratory session will be subject to the university policy of being administratively withdrawn from the class. Suitable protective clothing must be worn in the Laboratories. Such clothing as shorts and sandals are not permitted and will be grounds for refusal of admittance to the laboratories.

**NOTE:**During registration after classes begin a sign up is required for ALL Chemistry classes, recitations and laboratories. See Ms. Em Davis in CHEM room 161.

Co-op Work Program

In order for a cooperative education (co-op) experience to be recognized by the University and posted to an academic transcript, a student must register for co-op prior to the term he/she plans to participate. If a student fails to register for co-op by the last day to add classes, as published in the class schedule, the co-op experience will not be posted to his/her transcript retroactively. Students will be assessed a University fee of $40 per work period as a parallel (part-time) Co-op student or $60 per work period as an alternating (full-time) Co-op student. Failure to register for co-op may affect a student’s status at UAB as well as eligibility for loan deferment and/or health insurance. Students who are registered for co-op may consult their academic department to determine if they are eligible to receive academic credit for their experience. For more information, please contact the co-op program in Career Services, 934-4324.

BIOLOGY

UNDERGRADUATE

The Biology Department reserves the right to cancel any lecture sections with fewer than 10 students or lab sections with fewer than 15 enrolled. Students who register for a laboratory section that conflicts with other classes or work should not expect to be able to change sections when classes start. Students who miss the first laboratory session may be subject to the university policy of being administratively withdrawn from the class. Labs will begin the week of August 28, 2006. ** NOTE: All biology courses that have required associated laboratories will require a signature of the laboratory coordinator to add the class beginning the first day of class. No one will be added to a class (even if it has not yet met) without the proper signature.

4686 BY 101-VT  Topics in Contemporary Biology, 3, Jenkins, Fri., (Aug.25-Sept.15), 5:30PM-9:30PM, Sat., (Aug.26-Sept. 9), 8:00AM-12:00PM, Sun., (Aug.27-Sept.10),1:00PM-5:00PM. Class meets every Friday, Saturday & Sunday for the first 3 weeks of the term. The final exam will be given on Friday, September 15, 2006. Students must attend all classes.

4688 BY 101-3A  Topics in Contemporary Biology, 3, Jenkins, M&W, 4:00PM-5:15PM.

For students registering for BY 102 laboratory sections attendance at the first laboratory meeting is mandatory. If student misses the first lab meeting of the semester he/she may be dropped from the lab. If the first day the laboratory meets is after the drop deadline he/she may receive a failing grade in the laboratory. **Please Note: Students are not allowed to add any Biology class after classes begin without the express written signatures of the lecture professor and appropriate lab coordinator.

**CHEMISTRY**

All chemistry labs will begin the first full week of classes for the Fall semester 2006. This is the week beginning on Monday, August 28, 2006. A copy of your registration form must be presented to your lab instructor during the first lab session in order to check in and perform the first experiment. The Chemistry Department reserves the right to cancel any lecture or lab section with fewer than 10 students enrolled. Students who register for a lab section that conflicts with other classes or work will not be able to change sections after classes start. Students who miss the first laboratory session will be subject to the university policy of being administratively withdrawn from the class. Suitable protective clothing must be worn in the Laboratories. Such clothing as shorts and sandals are not permitted and will be grounds for refusal of admittance to the laboratories. **NOTE:During registration after classes begin a signature is required for ALL Chemistry classes, recitations and laboratories. See Ms. Em Davis in CHEM room 161.**

**Co-op Work Program**

In order for a cooperative education (co-op) experience to be recognized by the University and posted to an academic transcript, a student must register for co-op prior to the term he/she plans to participate. If a student fails to register for co-op by the last day to add classes, as published in the class schedule, the co-op experience will not be posted to his/her transcript retroactively. Students will be assessed a University fee of $40 per work period as a parallel (part-time) Co-op student or $60 per work period as an alternating (full-time) Co-op student. Failure to register for co-op may affect a student’s status at UAB as well as eligibility for loan deferment and/or health insurance. Students who are registered for co-op may consult their academic department to determine if they are eligible to receive academic credit for their experience. For more information, please contact the co-op program in Career Services, 934-4324.

**Honors Program**

The Honors Program provides an opportunity for independent research, close contact with faculty and community members, and innovative learning opportunities within an interdisciplinary context. Enrollment in some Honors classes requires previous admission to the Honors Program. For admission information contact Dr. Michael Sloane, UAB Honors Program, 1190 10th Avenue South or telephone 934-3228.
