D.M.D., M.D, and O.D. Total	1,108

¹This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note:

This enrollment count is as of the end of September 9, 2016. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry and Optometry as well as Medicine residents, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, Public Health and Medicine postdocs is the Office of Postdoctoral Education.

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories: Doctor's degree – research/scholarship – A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category included Ph.D. Doctor's degree – professional practice – A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: D.M.D., D.N.P., D.P.T., Dr.P.H., D.Sc.P.T., Ed.D., M.D., O.D. Doctor's degree – other – A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice. At UAB, this category includes the D.Sc.

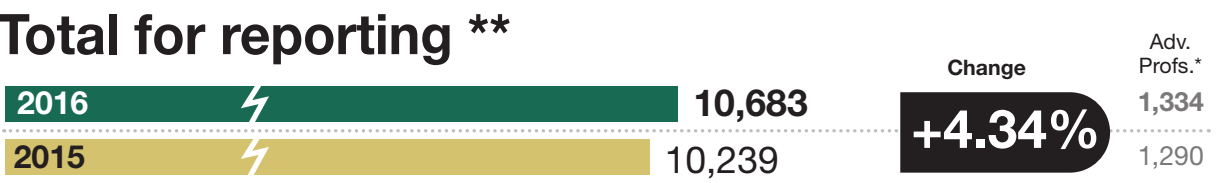

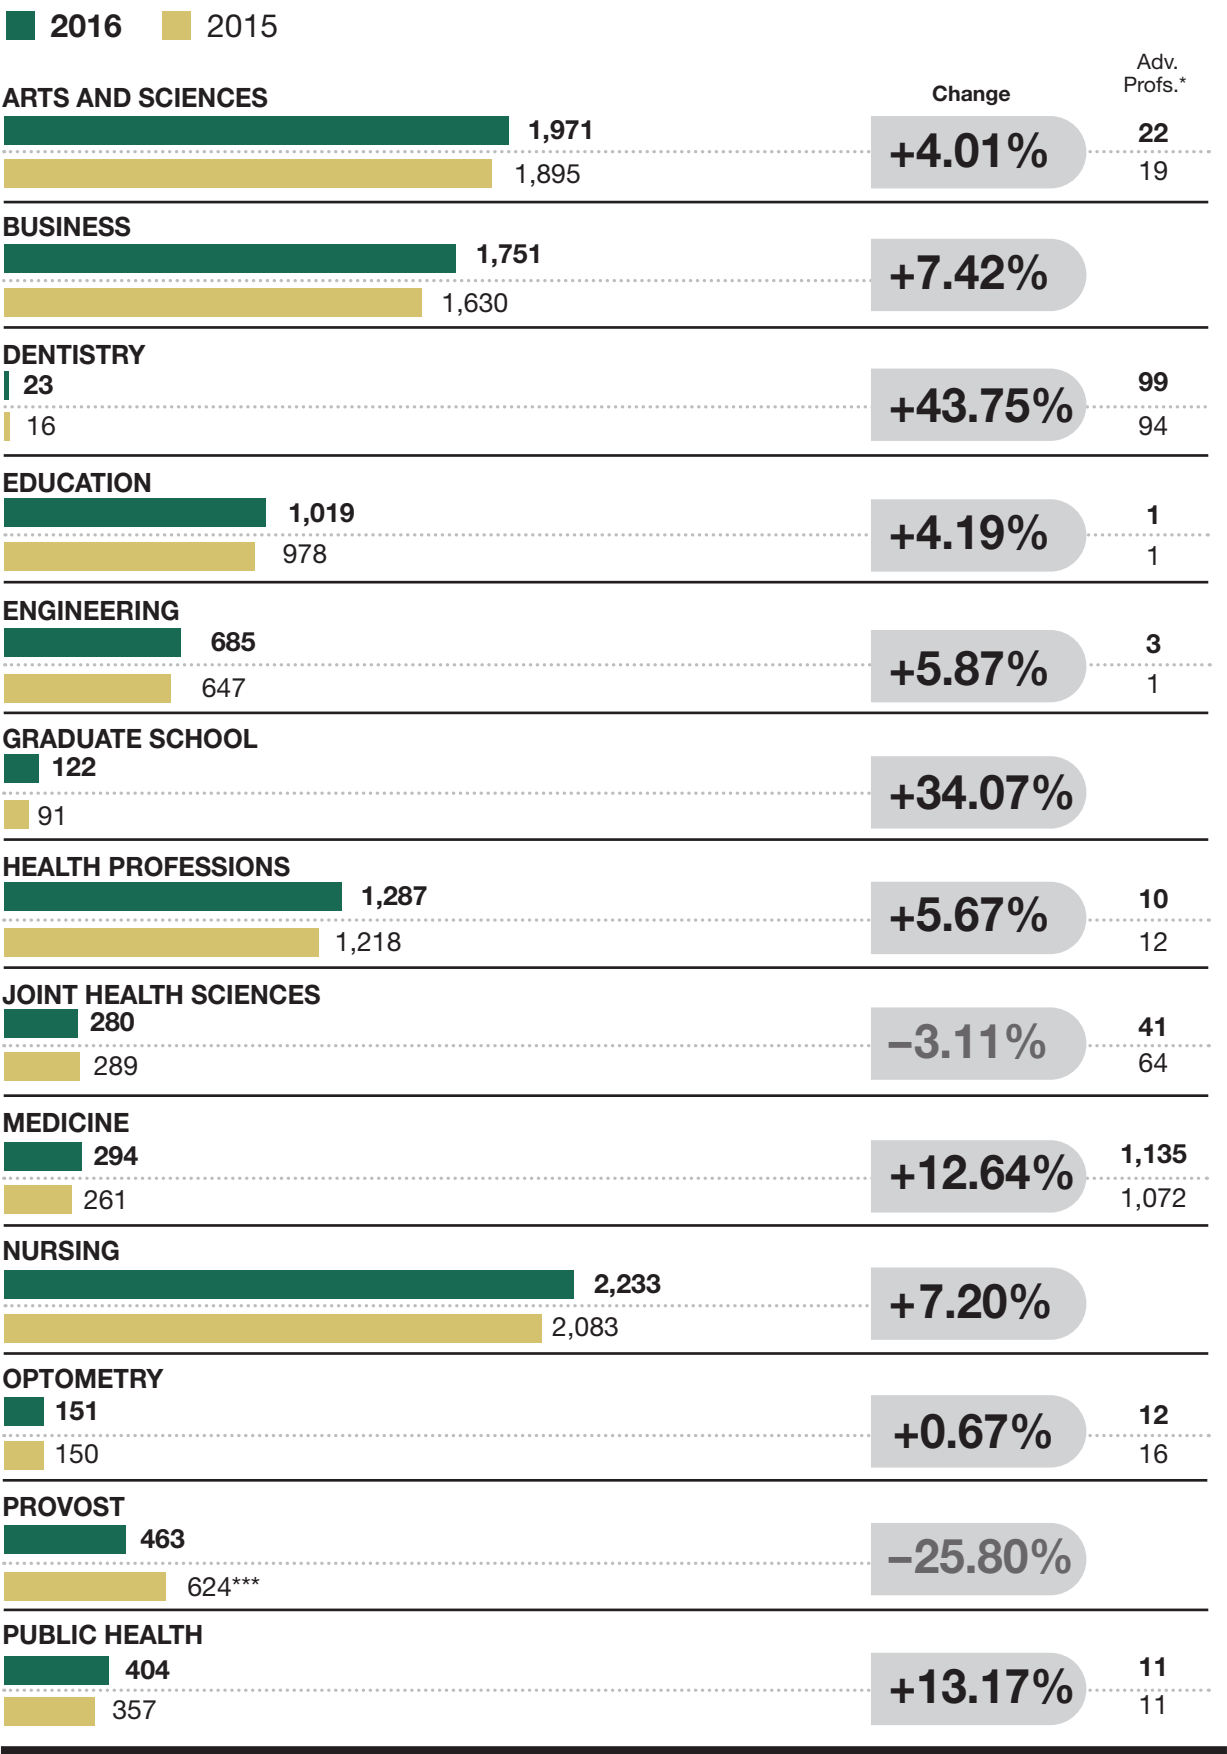

² This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note:

All counts reflect enrollment at the end of the drop/add period for each session (May 6 for the May session, May 11 for the "A" session, May 14 for the 14-week session, June 11 for the 10-week session, and June 29 for the "B" session). Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses. Also excluded are students enrolled in programs based outside of the United States. Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, and Public Health is the Office of Postdoctoral Education.

¹This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note:

This enrollment count is as of the end of September 7, 2015. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry and Optometry as well as Medicine residents, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, Public Health and Medicine postdocs is the Office of Postdoctoral Education.

¹This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note:

This enrollment count is as of the end of September 8, 2014. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, and Public Health is the Office of Postdoctoral Education.

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories:
Doctor's degree - research/scholarship - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category includes the Ph.D.
Doctor's degree - professional practice - A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: D.M.D., D.N.P., D.P.T., Dr.P.H., D.Sc.P.T., Ed.D., M.D., O.D.
Doctor's degree - other - A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice. At UAB, this category includes the D.Sc.

²This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note:

All counts reflect enrollment at the end of the drop/add period for each session (May 6 for the May session, May 12 for both the 14-week and the "A" sessions, June 9 for the 10-week session, and June 30 for the "B" session). Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses. Also excluded are students enrolled in programs based outside of the United States.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, and Public Health is the Office of Postdoctoral Education.

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories:
Doctor's degree - research/scholarship - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category includes the Ph.D.
Doctor's degree - professional practice - A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: D.M.D., D.N.P., D.P.T., Dr.P.H., D.Sc.P.T., Ed.D., M.D., O.D.
Doctor's degree - other - A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice. At UAB, this category includes the D.Sc.

²This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

³Unclassified includes nondegree graduate students.

Note:

This enrollment count is as of the end of January 20, 2014. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, and Public Health is the Office of Postdoctoral Education.

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories:
Doctor's degree - research/scholarship - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category includes the Ph.D.
Doctor's degree - professional practice - A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: D.M.D., D.N.P., D.P.T., Dr.P.H., D.Sc.P.T., Ed.D., M.D., O.D.
Doctor's degree - other - A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice. At UAB, this category includes the D.Sc.

²This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

³Unclassified includes nondegree graduate students.

Note:

This enrollment count is as of the end of the September 9, 2013. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, and Public Health is the Office of Postdoctoral Education.

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories:

Doctor's degree - research/scholarship - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category includes the Ph.D.

Doctor's degree - professional practice - A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: D.M.D., D.N.P., D.P.T., Dr.P.H., D.Sc.P.T., Ed.D., M.D., O.D.

Doctor's degree - other - A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice. At UAB, this category includes the D.Sc.

²This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note:

All counts reflect enrollment at the end of the drop/add period for each session (May 14 for the May session, May 20 for the 12-week session, June 10 for the "A" session and 9-week sessions, and July 6 for the "B" session). Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses. Also excluded are students enrolled in programs based outside of the United States.

Advanced Professionals are interns, residents, and postdoctoral fellows who are at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, and Public Health is the Office of Postdoctoral Education.

Note: This table shows enrollment by school for each of the sessions distinctly. A student enrolling for both the May session and the 9-week session, for example, is shown twice in this table.

*D.M.D., M.D., and O.D. programs do not utilize the multi-session summer calendar; therefore, these programs and advanced professionals are excluded from this comparative by-session table.

**Unclassified includes nondegree graduate students not assigned to a school. In prior years it also included undergraduate students in General Studies, who are now counted in Arts and Sciences.

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories:
Doctor's degree - research/scholarship - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category includes the Ph.D.
Doctor's degree - professional practice - A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: D.M.D., D.N.P., D.P.T., Dr.P.H., D.Sc.P.T., Ed.D., M.D., O.D.
Doctor's degree - other - A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice. At UAB, this category includes the D.Sc.

²This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note:

This enrollment count is as of the end of the drop/add period, January 16, 2013. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Joint Health Sciences, and Public Health is the Office of Postdoctoral Education.

D.M.D., M.D. and O.D. Total	1,036

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories:

Doctor's degree - research/scholarship - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category includes the Ph.D.

Doctor's degree - professional practice - A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: D.M.D., D.N.P., D.P.T., Dr.P.H., Ed.D., M.D., O.D.

Doctor's degree - other - A doctor's degree that does not meet the definition of a doctor's degree - research/scholarship or a doctor's degree - professional practice. At UAB, this category includes the D.Sc. and D.Sc.P.T.

²This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

³Unclassified includes undergraduate students in General Studies and nondegree graduate students not assigned to a school or college.

Note:

All counts are as of January 17, 2012, the end of the drop/add period for the spring 2012 semester. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses. Also excluded are students enrolled in programs based outside of the United States of America.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts and Sciences, Engineering, Health Professions, Nursing, and Public Health is the Office of Postdoctoral Education.

¹Starting in fall 2010, the U.S. Department of Education divided the classification of doctoral degrees into the following categories:

Doctor's degree - professional practice - A doctor's degree that is conferred upon completion of a program providing the knowledge and skills for the recognition, credential, or license required for professional practice. The degree is awarded after a period of study such that the total time to the degree, including both pre-professional and professional preparation, equals at least six full-time equivalent academic years. Some of these degrees were formerly classified as "first-professional." At UAB, this category includes the following degrees: DMD, DNP, DPT, DrPH, MD, OD.

Doctor's degree - research/scholarship - A Ph.D. or other doctor's degree that requires advanced work beyond the master's level, including the preparation and defense of a dissertation based on original research, or the planning and execution of an original project demonstrating substantial artistic or scholarly achievement. At UAB, this category includes the D.Sc., D.Sc.PT., Ed.D, and Ph.D.

²This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

³Effective January 1, 2010, the Schools of Arts & Humanities, Education, Natural Sciences and Mathematics, and Social and Behavioral Sciences merged and realigned as the College of Arts & Sciences. While a part of the College of Arts and Sciences, the School of Education retained its school identity as a distinct unit.

⁴Unclassified includes undergraduate students in General Studies and nondegree graduate students not assigned to a school or college.

Note:

All counts are as of August 24, 2010, the end of the drop/add period for the fall 2010 semester. All counts are for students enrolled in credit courses. Excluded from the count are students who are only auditing courses and persons taking only continuing education or other noncredit courses.

Advanced Professionals are interns, residents, and postdoctoral fellows who are here at UAB to participate in specialized training beyond their academic or professional degrees. For the Schools of Dentistry, Medicine, and Optometry, figures are obtained directly from those schools. The source of the data for Arts & Sciences, Engineering, Health Professions, and Public Health is the Office of Postdoctoral Education.

*Effective January 1, 2010, the Schools of Arts & Humanities, Education, Natural Sciences and Mathematics, and Social and Behavioral Sciences merged and realigned as the College of Arts & Sciences. While a part of the College of Arts and Sciences, the School of Education retained its school identity as a distinct unit.

**Unclassified includes undergraduate students in General Studies and nondegree graduate students.

***This total is reported to state and federal agencies and is included in documents such as surveys and questionnaires.

Note: Starting in fall 2010, the U.S. Department of Education re-categorized doctoral degrees. The former first professional programs are now reflected as doctoral.

Note: This table shows enrollment by school for each of the sessions distinctly. A student enrolling for both the May session and the 9-week session, for example, is shown twice in this table.

*First professional programs do not utilize the multi-session summer calendar; therefore, first professionals and advanced professionals are excluded from this comparative by-session table.

**Unclassified includes General Studies undergraduates and nondegree graduate students.

Note: This table shows enrollment by school for each of the sessions distinctly. A student enrolling for both the May session and the 9-week session, for example, is shown twice in this table.

*First professional programs do not utilize the multi-session summer calendar; therefore, first professionals and advanced professionals are excluded from this comparative by-session table.

**Included in the School of Health Professions graduate count for 2006 are 29 students enrolled in the Administration Health Services Program offered jointly by the School of Business and the School of Health Professions (25 in the 12-week session, and 4 in the 9-week session).

***Unclassified includes General Studies undergraduates and nondegree graduate students.
