Duo Self-Enrollment Guide for Android Tablets

The Duo Mobile application provides an extra layer of security when it is incorporated into the login process for web sites such as uab.box.com. In addition to using your BlazerID and strong password to log in, Duo Mobile leverages your Android tablet to add a second authentication layer for uab.box.com. That way, if your BlazerID strong password is ever compromised, the bad guys still would be unable to complete the login process because they would not have access to your tablet and the final authentication process provided by the Duo Mobile app.

This document walks you through the process of initially enrolling in Duo’s two-factor authentication service and adding an Android tablet to your account. To expedite this process, be sure to go to the Google Play Store, search for “Duo Mobile,” and download the Duo Mobile app before beginning with Step 1. You will need Internet connectivity to complete this process. Also, it is highly recommended that you use a computer to set up your Duo account. Be sure that you are using one of the following supported browsers:

- Chrome,
- Firefox,
- Safari,
- Internet Explorer 8 or later,
- Opera

For more information about using Duo Mobile two-factor authentication at UAB, please visit http://www.uab.edu/it/home/2-factor. Duo’s “Guide to Two-Factor Authentication” (https://guide.duo.com/) also is an excellent resource for learning more about two-factor authentication, Duo’s Mobile app, and how everything works. Note: If you already have a Duo account and an enrolled device and you simply want to manage your tablet or add another device, please refer to the Adding a Device in Duo and Managing Settings document to perform that task instead of using this one.

To create a new Duo account and add an Android tablet to it, please conduct the steps below.

1. Launch a browser and visit UAB’s 2FA Sign-Up page. Click the “2-Factor Sign-Up” button and login to that site by typing your BlazerID and strong password.
2. Once you have authenticated, you will land on UAB's “Sign Me Up” landing page. Click the “Yes, Sign Me Up” button to create your new Duo account.
3. After clicking the “Sign Me Up” button, you will land on Duo’s “Start Setup” portal. This process will allow you to set up your first mobile device for use with Duo.
4. Click the “Start setup” button at the bottom to begin the Duo Mobile device enrollment process.
5. You may now select a device type to use for two-factor authentication with Duo. Click the “Tablet” radio button, and then click the “Continue” button.
6. Multiple radio buttons appear detailing the choices for the tablet device type. Click the Android radio button, and then click the “Continue” button.

7. Directions are provided for downloading the Duo Mobile app. If you already have installed the app on your tablet, click the “I have Duo Mobile installed” button. If you have not already installed the app, follow the instructions to download and install the app onto your tablet. Once that is completed, click the “I have Duo Mobile installed” button.
8. The “Activate Duo Mobile for Android” screen appears, along with a bar code and an activation link. Activation of the mobile app can be conducted via one of the following three processes:

![Activate Duo Mobile for Android](image)

*Figure 4: Either scan the activation bar code with your tablet or click the activation link to the right of it.*

a. To use the bar code, perform the following steps:
   i. On your tablet, open the Duo Mobile app and press the + button at the top of the app.
   ii. A prompt will appear on the tablet asking for permission to access the camera function. Click “OK” on the tablet.
   iii. Scan the bar code with the tablet’s camera. Successful completion will result in the creation of a UAB account in the Duo Mobile app on your tablet.

b. To use the “Add Account” button at the bottom of the Duo Mobile app on your tablet, perform the following steps:
   i. Press the “Add Account” button to activate the camera on your tablet.
      1. If a prompt appears on the tablet asking for permission to access the camera function, click “OK” on the tablet.
   ii. Use the tablet’s camera to scan the bar code. Successful completion will result in the creation of a UAB account in the Duo Mobile app on your tablet.

c. To use the activation link, perform the following steps:
   i. Click the “Or, have an activation link emailed to you instead” link on the “Activate Duo Mobile for Android” screen.
   ii. Enter an email address that you can access on your tablet, and then click “Send email.”
   iii. A Duo Mobile Activation email containing the activation link will arrive in your tablet’s Inbox. Open the email and tap the activation link.
   iv. Now open the Duo Mobile app. You should see a new UAB account appear in the tablet’s Duo Mobile app.
9. Return to the “Activate Duo Mobile for Android” screen in your computer’s browser. A green check box should now appear over the bar code, signifying successful activation. Click on the “Continue” button.

*Figure 5: Successful enrollment will result in a new Duo account appearing in the Duo app on your tablet.*

10. The “My Settings & Devices” screen appears and displays all of the devices that you have enrolled. You can select the Duo authentication method, and you also can choose any of the devices that have been enrolled. Users also can choose their preferred method of authenticating. Choosing “Ask me to choose an authentication method” allows the user to select either the Duo Push method or the “Enter a Passcode” option when authenticating with Duo.

11. You can now complete the authentication process for the site or application that you originally were logging into by clicking the gray “Back to Login” button.

12. You can have Duo send a one-click Push notification to complete the authentication process, or you can use the Duo Mobile app to generate a six-digit passcode to complete the process.

   a. To use the Duo Push, perform the following steps:

      i. Click the “Send Me a Push” button. Note: You also can click the “Remember me” checkbox to have Duo remember your login on
Figure 7: Click the "Send Me a Push" button to have Duo send an authentication request to your tablet. Also check the “Remember me” box to be exempt from 2FA for the defined grace period.

ii. Now go to your mobile device and open the Duo Mobile app. A notification bar will appear at the top of the app informing you that you have received a Push notification. Tap the bar to access the Push notification.

iii. The Push notification will open. A green box and a red box appear at the bottom. Tapping the green box completes the two-factor authentication process. Tapping the red box will terminate the authentication attempt. Tap the green box.

Figure 8: Click the green box to Approve.

iv. Once the green “Approve” button is clicked, the Duo portal in your browser will display a successful authentication bar across the bottom. You then are redirected to a page stating that you have successfully completed this process.
b. To use the Duo Mobile app to generate and input a six-digit passcode, perform the following steps after clicking the “Back to Login” button in Step 11:
   i. Click the “Enter a Passcode” button.

   ii. To fill in the passcode field, go to your mobile device, open the Duo Mobile app, and follow these instructions:
       1. Click the key to the right of your UAB account to generate a passcode.
2. Duo will generate a six-figure passcode. Return to the browser on your computer and enter your passcode into the “Enter a Passcode” field.

*Figure 12: When Duo generates a passcode, return to the Duo login portal and type it into the Passcode field.*

iii. Once the passcode has been typed in, click the “Log In” button.

![Duo Enrollment Guide for Android Tablets](image)

*Figure 13: Once the passcode is typed in, click the "Log In" button to complete the 2FA field.*

iv. Duo will validate the passcode, and then the Duo portal in your browser will display a successful authentication bar across the bottom. You then are redirected to a page stating that you have successfully completed this process.

If you encounter any problems with the authentication process, please contact AskIT by calling 996-5555 or visiting uab.edu/techhelp.
