

- Speaker: Kiochi Noguchi, M.D., Ph.D. ,  
Professor and Chair  
Department of Anatomy and Neuroscience  
Hyogo College of Medicine  
Hyogo, Japan
- Date: August 18, 2015
- Title: “Pronociceptive Lipid Mediators in the Spinal Cord in Neuropathic Pain”
- Synopsis: Membrane lipids and their metabolites are actively involved in the regulation of spinal cord dorsal horn neuron excitability. In this seminar, Dr. Koichi Noguchi will present research work performed recently in his laboratory on membrane lipid signaling pathways that are activated during peripheral nerve injury. The contribution of these membrane lipids and their metabolites to neuropathic pain will be discussed.
