**WELCOME MEDICAL STUDENTS**

Please welcome our eleven UAB Medical Students during the January 5–February 1, 2015 period. Douglas Denson, Jon McDonald, Lindsay Moore, Scott Novack, and Ryne Schlitz, will all be in Inpatient Anesthesia. Richard Cockrum and Clay Parker will be in Critical Care Anesthesia. Duncan Harmon and Adam Witcher will be in Anesthesiology at the Veterans Affairs Hospital. Melton Ambrose and Bradley Hicks will rotate in an Anesthesiology MS3 Elective. Please help make their Anesthesiology learning experience both productive and enjoyable.

**THIS MONTH IN ANESTHESIA HISTORY**

January 18, 1779: Peter Mark Roget is born in London, England. After graduation from medical school in Edinburgh, Roget spent 1799 in Bristol working with Thomas Beddoes and Humphry Davy on their famous nitrous oxide research. [For more information, see Wright A.J. Peter Mark Roget and the Bristol nitrous oxide experiments. *Bull Anesthesia History* 19(3): 16-19, July 2001] Roget later wrote the *Encyclopaedia Britannica* entry on Beddoes and near the end of his life created the thesaurus for which he is so well known [the first edition was published in 1852] . A prolific author, Roget also invented an improved slide rule used until the development of pocket calculators, and the pocket chessboard. He did research on vision physiology which he published in 1825 that is the conceptual basis for motion pictures. Roget died on September 17, 1869. A recent biography is Joshua Kendall’s *The Man Who Made Lists: Love, Death, Madness, and the Creation of Roget’s Thesaurus* [2008].
