

## UAB Health Services Research (HSR) Training Program

Full-time mentored research training for **predoctoral and postdoctoral** fellowships supported by the Agency for Healthcare Research and Quality (AHRQ) through a T32 Institutional National Research Service Award (NRSA).

### Leadership and Timeline

This is a mentored research training program in health services, outcomes, and effectiveness research (Directors: Michael Mugavero, MD, MHSc and Emily Levitan, ScD). The final deadline for applications is January 25, 2023 at 5:00 PM CST. Selected applicants will be invited to interview in February 2023. Notification of selection will be in early March 2023. The fellowship will begin in July 2023 and will last 1 year (with potential for one additional year for postdocs and two additional years for predocs).\*

\* Appointment contingent upon continued funding of the training grant that is re-competing this year. A funding notification from AHRQ is anticipated in spring 2023.

### Program Alignment

We seek candidates interested in conducting AHRQ-mission aligned research with AHRQ priority populations who aspire to become change agents who advance healthcare outcomes and equity.

The AHRQ mission is to make healthcare:

- Safer
- Higher quality
- More accessible
- More equitable
- More affordable

AHRQ priority populations include:

- Racial and ethnic minority groups
- Low-income groups
- Women
- Children
- Individuals with special needs
- Rural areas, including frontier areas
- Inner-city areas

### Benefits

- Annual NRSA Stipend for full-time multidisciplinary mentored research training
- Tuition Support for Didactic Training: In the pursuit of terminal degrees (predoc) or Master's of Science in Public Health or other Master's degree or Certificate program (postdoc), depending on focus and prior training
- Training Related Expenses: Health insurance, \$1,500 travel stipend, etc.
- Opportunities to interact with an interdisciplinary group of pre- and postdoctoral peers, mentors, faculty, and invited experts during weekly seminars and enrichment programs

### Eligibility

We seek predoctoral candidates enrolled in research doctorate programs across all Schools and Colleges at UAB. Predoctoral applicants in clinical doctoral programs (MD, DDS, etc.) are only eligible for support when doctoral studies are part of a formal combined research degree program, such as the MD/PhD. Postdoctoral candidates from outside of UAB as well as those from all UAB Schools and Colleges are encouraged to apply. Eligible postdoctoral applicants will have earned a clinical or research doctorate, including PhD, ScD, DrPH, MD, DO, DDS, DMD, DNS, or equivalent doctoral degree. For clinical postdoctorates, the program may be coordinated with a current residency program or clinical fellowship and will allow for some minimum time allocated to clinical activities conducted outside the 40 hours per week required for full-time research training. All candidates must be U.S. citizens, non-citizen nationals, or have permanent residency status. All candidates must demonstrate a commitment to full-time research training.

### Contact

For questions regarding eligibility, program requirements, the application process, and an application packet, please contact Geri Davis (geridavis@uabmc.edu), Michael Mugavero (mmugavero@uabmc.edu) or Emily Levitan (elevitan@uab.edu).
