

TRENDING IN TRIALS

Essential Information for Principal Investigators at UAB

LATEST UPDATES

➔ **Research Summaries** are one page synopses of a trial, made available in IMPACT to providers at the point of care to ensure adequate background knowledge is available for medical decision-making and includes items such as study agent mechanism of action, side effects and study contacts.

View a sample research summary for a PI [here](#).

➔ **Consult with the BERD team during the critical design and initial implementation phases:** The CCTS Biostatistics, Epidemiology & Research Design (BERD) unit collaborates with investigators at any stage, from student to well-established faculty, pairing expertise with study-specific needs and providing state-of-the-art study design, data management, and statistical analysis.

[Contact the CCTS](#) to coordinate a consultation.

➔ **Did You Know?** The UAB Office of Sponsored Programs holds virtual office hours each week. Melinda Cotten, Assoc. VP for Research Business Operations, reserves every Thursday at 2pm to connect with faculty on specific OSP projects or MTA issues. Simply send her an email with the IRAP # (specify OSP or MTA #) at least 2 days in advance so that she has time to research the issue. Thursdays at 2pm won't work? Melinda can coordinate another time to meet.

[Email Melinda Cotten](#) to get started.
