Register for the Clinical Investigator Training Program (CITP): CITP is a hands-on didactic and pragmatic training and education program to prepare new investigators in the conduct and implementation of human subjects research. The program is designed for those with MDs, DOs, DMDs and PhDs, with a heavy emphasis on the responsibilities of investigators when conducting clinical research with humans. Space is limited.

Complete the CITP Interest Form.

NEW! The Office of the IRB will be holding virtual office hours to serve as an opportunity for anyone in the research community to have direct access to an experienced OIRB staff member. The next virtual session will be held Thursday, July 1, 2021 from 11:00 am to 1:00 pm.

CCTS Biorepository provides fluid specimen management solutions enterprise-wide: The CCTS Biorepository maintains an unparalleled, technically rigorous and robust biorepository available to all UAB investigators. PIs retain complete ownership of their study assets while benefitting from the unit’s good clinical practice and SOPs, state-of-the-art specimen tracking, 24/7 monitored freezer capacity and convenient location in the heart of UAB’s research enterprise.

Learn how the CCTS Biorepository can solve your specimen needs.

Survey Says! An informal TnT poll of UAB trialists to define the most helpful resource to aid study recruitment reveals tools in identifying study participants represent the greatest desire to advance clinical research. These insights help University leaders prioritize efforts to advance your research. Be heard – Respond to this week’s TnT Survey, which asks “What support would be most helpful to your team to conduct clinical trials?”

Thank you for reading,

UAB Clinical Trials Administration Committee (CTAC)
