

TRENDING IN TRIALS

Essential Information for Principal Investigators at UAB

LATEST UPDATES

➔ **Research Summaries** are one page synopses of a trial, made available in IMPACT to providers at the point of care to ensure adequate background knowledge is available for medical decision-making and includes items such as study agent mechanism of action, side effects, and study contacts.

[View a sample research summary for a PI here.](#)

➔ **Interested in developing an investigator initiated trial?** CCTS can help with study design; access to summary, limited (de-identified), and fully identified data sets; innovative tools to support clinical research; and data analytic expertise.

[Contact the CCTS today to connect with the methodology group \(BERD\) and the informatics team!](#)

➔ **Did You Know?** Melinda Cotton, Associate VP for Research Business Operations, reserves every Thursday at 2pm to connect with faculty on specific OSP projects or MTA issues? [Simply send her an email](#) with the IRAP # (specify OSP or MTA #) at least 2 days in advance so that she has time to research the issue. Thursdays at 2pm won't work? Melinda will work with your schedule to set something up.

Thank you for reading!
