

# Max Cooper Award Career Excellence in Research

The Max Cooper Award for Career Excellence in Research recognizes outstanding research achievements by Department of Medicine faculty. This award recognizes researchers that have gained national recognition for important research discoveries over their scientific career.

## Eligibility

The Max Cooper Award is given annually to faculty with a primary appointment at the level of Associate or Full Professor in the Department of Medicine.

Qualified candidates will demonstrate a sustained track record of outstanding research achievements. The candidate should demonstrate research excellence both as an independent investigator and through collaborative and multidisciplinary research initiatives. In addition, qualifications of the candidate may further include substantial mentorship of others in research, and professional service activities involving research.

## Submission Requirements

Demonstrated evidence of research accomplishments includes, but is not limited to:

- 1) Important contributions to the scientific advancement
- 2) Track record of sustained research funding, which may include individual, group, programmatic, and multi-disciplinary projects
- 3) Service to national and/or international research organizations
- 4) Substantial and meaningful mentoring of students, residents, fellows, junior faculty, and/or other trainees in research

Please note that **any UAB Faculty Member** may nominate and more than one person from a Division can be nominated.

## Deadline

5:00 pm Monday, April 1, 2019
