Survey re Project Management Software

Brought to you by
Lisa Schwaiger
- DOPM HelpDesk Triage and
Computer Tech, currently working
from home

This Tip of the Week was suggested by one of your co-workers (a non-IT person who works here at DOPM).

Do **YOU** have an idea for a future Tip of the Week, that others might benefit from?
(If so, please let us know at dopmHelp@uabmc.edu or 205-934-7662.)

This is a little different than a normal Tip of the Week.

In this, **we are asking you...**

Do you use any Project Management Software (PMS)?

If so, please let us know about it by filling out the following table (as best you know) and emailing to dopmHelp@uabmc.edu

(We are asking about this because someone in DOPM has asked us for PMS advice.)

Question	Your Answer
What inspired you to start using a PMS? Has it adequately served that need?	
What PMS do you use?	
Why did you choose that particular PMS?	
Approximately how long have you used it?	
How helpful is it?	
Pros	
Cons	
How was the learning curve?	
About how many people in your work group (or whatever) use it?	
Are others in DOPM using it too, that you know about? Who?	
Is there an "expert" in how to use it, and the rest are just casual users? If so, who is the expert(s)?	
Do you use it for multiple projects?	
What was the approximate cost?	
What suggestions would you give to someone interested in starting to use a PMS?	
Any other comments about it	

Was this helpful? Do you have suggestions for a future Tip of the Week? Do you have any other comments?

Let us know at dopmHelp@uabmc.edu
