

# Exercise Medicine Interns Needed

UAB Center for Exercise Medicine is looking for interns to volunteer in the Core Muscle Research Laboratory to assist scientists with a broad range of daily duties.

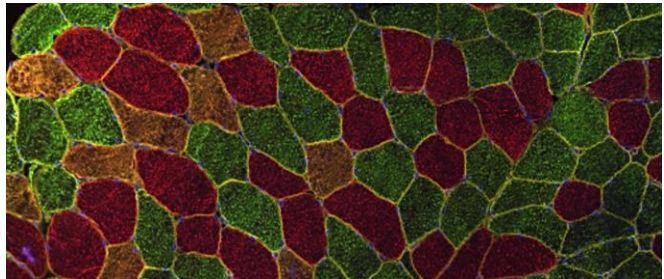

## What you gain from the internship:

- Acquire molecular lab based skills
- Gain exposure to muscle physiology research
- Learn to collaborate in a team-friendly environment
- Receive mentorship, scientific training and career development
- Present data at a scientific meeting or symposium

## Duties:

- Sample processing for molecular analysis
- Data collection and entry
- Microscopy imaging
- Lab maintenance

## Skeletal Muscle Histology

## Requirements:

- 12-15 hours per week commitment
- GPA > 3.0
- Science majors preferred
- Sophomore class or above (including graduate students)
- Cover Letter
- Resume

If interested, please send your cover letter and resume to:
