Hilton Perimeter
Park

UAB MEDICINE
GASTROENTEROLOGY
Knowledge that will change your world

UAB's 2016 Update in Gastroenterology and Hepatology is designed to update physicians and other health care providers treating patients with GI and liver diseases about new approaches for diagnosis and management of gastrointestinal and liver disease. Faculty will present data on multiple topics including **common disorders such as Barrett's esophagus, GERD, eosinophilic esophagitis, celiac disease, pancreatitis, difficult diarrhea, irritable bowel disease, GI issues in pregnancy, endoscopy in anticoagulated patients, liver transplantation, genetic liver disease, liver disease in pregnancy, hepatocellular carcinoma, cirrhosis, fatty liver disease, and hepatitis B & C.** Course format will offer didactic lectures augmented with audiovisuals, discussions and instructional case presentations. The goal is to provide attendees with improved competency, performance and quality of care for patients.

EDUCATIONAL OPPORTUNITIES:

- Describe new methods in refractory GERD when PPI's fail
- Diagnose and manage patients with pancreatitis
- Assess current concepts in alcoholic and non-alcoholic fatty liver disease
- Apply the latest management methods for IB
- Assess the latest hepatitis B & C therapies and their efficacies
- Diagnose and manage patients during pregnancy with GI and Liver disorder
- Diagnose and manage patients with cirrhosis and its complications
- Assess and apply current concepts in treating the patient with difficult diarrhea

WHO SHOULD ATTEND:

This course is designed for those in primary care, gastroenterology/hepatology and other physicians, residents, nurses and allied health professionals who deal with patients with acute and chronic gastrointestinal and liver issues.

COURSE FORMAT:

- We will provide you with important information in just 1 1/2 days
- Plenary sessions will contain didactic updates on the most recent developments and the application of those in clinical care
- Breakout sessions will use clinical case presentations and informal discussions
