Genetics and Genomics Seminar Series

Matthew S. Alexander, PhD
Assistant Professor, UAB Pediatric Neurology

“Genetic and epigenetic regulation of Duchenne muscular dystrophy”

Friday, September 6, 2019
12:00pm

Finley Conference Center
Kaul Human Genetics Building, 2nd Floor Courtyard

Target Audience: UAB Broader Genetics Community
There is no commercial support for this session

Objectives: After attending this session, participants should be able to understand:

1. Learn about the genetic causes and symptoms of Duchenne muscular dystrophy (DMD).
2. Learn about current DMD treatments and clinical trials.
3. Identification and validation of genetic modifiers of DMD.
4. Learn about the contribution of non-coding RNAs in DMD disease pathological progression.

Sponsored for CME credit by UAB Division of CME

The University of Alabama School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Alabama School of Medicine designates this Regularly Scheduled series for a maximum of 1 AMA PRA Category 1 Credit. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
