

Genetics and Genomics Seminar Series

Narendra Wajapeyee, PhD

Professor and Vice Chair for Research; Co-Leader Experimental Therapeutic Program,
UAB O'Neal Comprehensive Cancer Center

“Gene regulation in cancer: Mechanisms and Therapeutic Opportunities”

Friday, May 20, 2022 12:00pm

https://uab.zoom.us/meeting/register/tZApf-qrqzpkEtVN9G9yxUvJMpcXFCj_XADL

Target Audience: UAB Broader Genetics Community

Disclosures and acknowledgements:

- Narendra Wajapeyee has no actual or potential conflict of interest in relation to this program/presentation.
- The following planners, speakers, moderators, and/or panelists of this CE activity have no relevant financial relationships with commercial interests to disclose: Lizhong Wang, PhD; Runhua Liu; PhD.

There is no commercial support for this session

Objectives: After attending this session, participants should be able to understand:

1. Understand how oncogenes regulate gene expression
2. Understand instructive and stochastic mechanisms of gene regulation
3. Understand the implication of oncogene-directed gene regulation in cancer initiation and progression
4. Understand how gene expression regulators can be therapeutically targeted.

Sponsored for CME Credit by UAB Division of CME

The University Of Alabama School Of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The University Of Alabama School Of Medicine designates this Regularly Scheduled Series session for a maximum of 1 *AMA PRA Category 1 Credit(s)*TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The University Of Alabama School Of Medicine is an equal opportunity/affirmative action institution.
