Genetics and Genomics Seminar Series

Nita A. Limdi, Pharm. D, Ph.D, MSPH, FAHA  
Professor, Department of Neurology, School of Medicine  
University of Alabama at Birmingham

The Translational Framework for Pharmacogenomics and Chronic Disease Genomics  
Friday, June 3, 2022 12:00pm

https://uab.zoom.us/meeting/register/tZYufuqsqDgoE9JQtkGfandMz0pBUwC1lM2j

Target Audience: UAB Broader Genetics Community

Disclosures and acknowledgements:

• Nita A. Limdi has no actual or potential conflict of interest in relation to this program/presentation.
• The following planners, speakers, moderators, and/or panelists of this CE activity have no relevant financial relationships with commercial interests to disclose: Lizhong Wang, PhD; Runhua Liu; PhD.

There is no commercial support for this session

Objectives: After attending this session, participants should be able to understand:

1. Present the focus and strategy for pharmacogenomics and chronic disease genomics
2. Discuss discovery efforts to identify clinical, genetic variants and environmental factors influencing drug response and elucidate racial disparities in drug response
3. Discuss implementation framework for pharmacogenomics at UAB
4. Discuss national efforts and UAB’s leadership in the IGNITE and EMERGE NIH efforts

Sponsored for CME Credit by UAB Division of CME

The University Of Alabama School Of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The University Of Alabama School Of Medicine designates this Regularly Scheduled Series session for a maximum of 1 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The University Of Alabama School Of Medicine is an equal opportunity/affirmative action institution.
