

# Birmingham VAMC Chief Resident in Quality and Safety

*Position available*

Post-internal medicine or medicine-pediatrics residency.  
Not an H1 opportunity.

## Goals

1. Demonstrate expertise on principles of quality improvement and patient safety.
2. Participate in operationalizing ACGME/ABIM milestones related to system based practice (SBP) and problem-based learning and improvement (PBLI).
3. Develop expertise in how to integrate quality improvement and patient safety into a residency training program.

**Program.** Structured curriculum. 1-year program. PGY-4 level. Opportunities for implementing and disseminating projects and residency education. In collaboration with VA Quality Scholars fellowship.
