Clinical Informatics and Bioinformatics PowerTalk Seminar Series

Friday, February 28, 2020
10:15 AM—11:15 AM
Pittman Center For Advanced Medical Studies (PCAMS)
1924 7th Avenue South

"Center for Clinical and Translational Science:
Gateway to Success in Transdisciplinary Research"

The Center for Clinical and Translational Science (CCTS) draws on the expertise and capacity across an 11-institution partner network to be a regional and national leader in driving discovery to impact health, with special emphasis on disparities and the disproportionate disease burden affecting the southeast United States. Data science, informatics and rigorous methodology represent the keystone of this work. This discussion will showcase many of the innovative advances catalyzed by the CCTS in partnership with the UAB Informatics Institute to enable clinical and translational research, including data access strategies, cohort feasibility assessment, research design, data management and analytics.

PRESENTERS

Jennifer Croker, PhD
Director
UAB CCTS Research Commons

David Redden, PhD
Professor and Chair
Department of Biostatistics
School of Public Health
Director, CCTS BERD

Matt Wyatt, MS
Director, Clinical Research Informatics
UAB Informatics Institute
