

## Web-Based Reporting

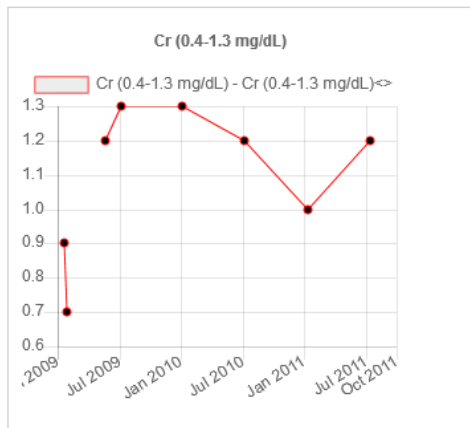

### Web-Site Announcement

08/3/2017

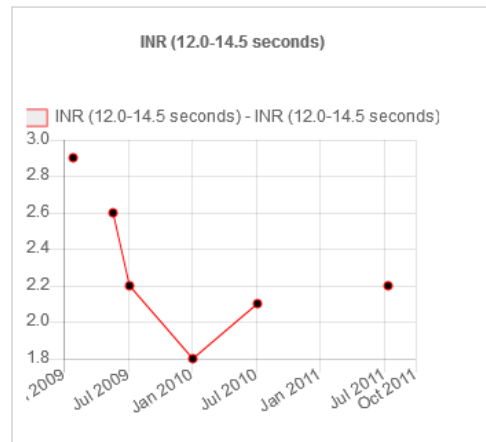

Intermacs is happy to announce the addition of a new feature to the Web-Based Data Entry system, Patient Management. The Patient Management tool provides an easy to read summary of clinical characteristics on a single patient. The Patient Management tool is also accessible from the patient summary screen. The patient management report will include key data that has been entered into the Web-Based Data Entry:

1. Demographics
2. Pre-Implant
3. Primary Implant in Intermacs
4. Events (Rehospitalization, Infection, Bleeding, Device Malfunction, Neurological Dysfunction, Other Serious AE, Explant, Death)
5. Quality of Life
6. Laboratory Values
7. Medications
8. Zoning variables (Right Heart Failure, Hemolysis, Hypertension)

The report also contains user-selected charts for laboratory values to help visualize changes over time.

(Example-Creatinine (mg/dL))

(Example-INR)

For an example report and instructions on how to access this feature, please see below.
