Joseph Wedekind, PhD

Professor | Dept of Biochemistry & Biophysics | University of Rochester School of Medicine and Dentistry

Structure and Function Analysis of Metabolite-Sensing Gene-Regulatory RNAs

December 9, 2026

11:45 AM – 1:00 PM

BBRB 170

The UAB *i*SB Structural Biology Forum (SBF) brings together specialists and non-specialists in structural biology to promote collaborative structure–function research in diverse disciplines including infectious disease, cancer, immunology, cell biology, drug discovery/design, microbiomics and metabolomics.

Refreshments will be served. For more information, please contact Dr. Kevin Pawlik (iSB@uab.edu)
