iSB Summer Seminar

Carlos Fernández Tornero, PhD

Professor | 'Margarita Salas' Center for Research in Biology | Spanish National Research Council

RNA polymerases: transcription and beyond

June 18, 2026

10:30 - 11:30 AM

BBRB 170

The iSB brings together specialists and non-specialists in structural biology to promote collaborative structure–function research in diverse disciplines including infectious disease, cancer, immunology, cell biology, drug discovery/design, microbiomics and metabolomics.

Refreshments will be served. For more information, please contact Dr. Kevin Pawlik (iSB@uab.edu)
