*i*SB Structural Biology Forum

Elizabeth Duran, PhD

Assistant Professor | Department of Chemistry | University of Alabama at Birmingham

Mechanistic insight into nucleic acid unwinding by DEAD-box helicase DDX41

November 4, 2026

11:45 AM - 1:00 PM

BBRB 170

The UAB *i*SB Structural Biology Forum (SBF) brings together specialists and non-specialists in structural biology to promote collaborative structure–function research in diverse disciplines including infectious disease, cancer, immunology, cell biology, drug discovery/design, microbiomics and metabolomics.

Refreshments will be served. For more information, please contact Dr. Kevin Pawlik (iSB@uab.edu)
