# Structural Biology Forum

**Andrew Ulijasz, PhD**

UAB Departments of Medicine and Microbiology

**Structural insights into the *Pseudomonas aeruginosa* aldehyde response**

January 7, 2026

11:45 am–1:00 pm

BBRB 170

The UAB iSB Structural Biology Forum (SBF) brings together specialists and non-specialists in structural biology to promote collaborative structure–function research in diverse disciplines including infectious disease, cancer, immunology, cell biology, drug discovery/design, microbiomics and metabolomics.

Refreshments will be served. For more information, please contact Dr. Kevin Pawlik ([iSB@uab.edu](mailto:iSB@uab.edu))
