Storage: Store product at room temperature.

Introduction

T-PER® Tissue Protein Extraction Reagent is for total protein extraction from tissue samples. The simple composition of this reagent provides versatility because components such as protease inhibitors, salts, reducing agents or chelating agents may be added to the reagent before proceeding with cell lysis. The prepared cell lysate may be used for reporter assays (e.g., luciferase, β-galactosidase, chloramphenical acetyltransferase), protein kinase assays (e.g., PKA, PKC, tyrosine kinase), immunoassays (e.g., Western blots, ELISAs, RIAs) and protein purifications.

T-PER® Reagent is mild, requires minimal amount of detergent for cell lysis, and the detergent is dialyzable. Additionally the reagent is compatible with standard protein assays such as BCA™ Protein Assay (Product No. 23225) and Coomassie Plus–The Better Bradford™ Assay Kit (Product No. 23236).

Procedure for Tissue Lysis

1. If desired, add protease inhibitors to the T-PER® Reagent just before use.
2. Weigh tissue samples. Use a ratio of ~1 g of tissue to 20 ml T-PER® Reagent. Use a smaller volume of T-PER® Reagent if a more concentrated protein extract is required.
3. Add the appropriate amount of T-PER® Reagent to the tissue sample and homogenize.
4. Centrifuge the sample at 10,000 × g for 5 minutes to pellet cell/tissue debris.
5. Collect supernatant and continue with downstream analysis or further purification.

Warranty: Pierce products are warranted to meet stated product specifications and to conform to label descriptions when used and stored properly. Unless otherwise stated, this warranty is limited to one year from date of sale for products used, handled and stored according to Pierce instructions. Pierce’s sole liability for the product is limited to replacement of the product or refund of the purchase price. Pierce products are supplied for laboratory or manufacturing applications only. They are not intended for medicinal, diagnostic or therapeutic use. Pierce products may not be resold, modified for resale or used to manufacture commercial products without prior written approval from Pierce Biotechnology. Pierce strives for 100% customer satisfaction. If you are not satisfied with the performance of a Pierce product, please contact Pierce or your local distributor.
