 - Physical Education and Activity

New facilities

- Just broke ground on the HLKN/Texas A&M Human Clinical Research Facility
 - Completion date: 10/16

HLKN Human Clinical Research Facility

- 21,518 sq ft with:
 - 12-bed overnight stay unit
 - Body comp and functional assessment core
 - Rehabilitation Core
 - Compounding unit
 - Mass Spec and Analytical core for metabolomics

Inside – Second Floor

Human Clinical Research Facility

2nd FLOOR PLAN

In Conclusion:

- If you are looking for a collaborator or a partner, don't forget Texas A&M....
- We would be interested in adding value (and testing capabilities) to anyone's MoTrPAC application
