February 07, 2018 | 12:00 pm

*Targeting conventional outflow: the next generation of glaucoma therapeutics*

W. Daniel Stamer, PhD

Joseph A.C. Wadsworth Professor of Ophthalmology  
Professor of Biomedical Engineering Duke University

Hosted by: Brian C. Samuels, MD, PhD

**February 28, 2018 | 12:00 pm**

*Neural Control of Choroidal Blood Flow and Retinal Health*

Anton Reiner, PhD

Professor Department of Anatomy and Neurobiology. University of Tennessee Health Science

Hosted by: Paul Gamlin, PhD

**March 07, 2018 | 12:00 pm**

*Ocular fluid dynamics: from theory to clinical applications*

Giovanna Guidoboni, PhD

Professor, Electrical Engineering and Computer Science, University of Missouri

Adjunct Professor, Mathematical Sciences, IUPUI

Adjunct Professor, Ophthalmology, IU School of Medicine

Managing and Chief Editor of the Journal for Modeling in Ophthalmology

Hosted by: Rafael Grytz, PhD

**March 21, 2018 | 12:00 pm**

*Understanding glaucomatous damage: An OCT approach*

Don C. Hood, PhD

James F. Bender Professor of Psychology

Professor of Ophthalmic Science, Columbia University

Hosted by: Christopher Girkin, MD, MSPH

**April 11, 2018 | 12:00 pm**

*Area: epidemiology, genetics, and imaging of age-related macular degeneration*

Emily Y. Chew, MD

Deputy Director of the Division of Epidemiology and Clinical Applications

Deputy Clinical Director at the National Eye Institute

Immediate Past President of Association for Research in Vision and Ophthalmology

Hosted by: Christine A. Curcio, PhD
