

# **2023 Pathology Grand Rounds**

## **Robert M. Brissie Memorial Lecture**

CME Course #RSS-213446

**Andrew M. Baker, M.D**

Chief Medical Examiner

Hennepin, Dakota, & Scott Counties - Minnesota

### **"The Radiographic, Gross, and Microscopic Evaluation of Fractures in the Deceased Infant and Small Child"**

**Thursday, March 23, 2023**

**12:00 PM - 1:00 PM CT**

**West Pavilion Conference Center - Room E**

Boxed lunches will be available

After participating in this CME activity, participants should be able to:

- 1) Explain the role of postmortem plain film radiography in evaluating deceased infants and small children
- 2) Correlate the radiographic, gross, and histological features of healing fractures in deceased infants and small children
- 3) Outline the sequence of histological changes in the evolution of fractures in deceased infants and small children

Target Audience: Departmental Faculty, Fellows, Residents, Medical Students, Other Health Sciences Students

Disclosure: The presenter discloses that they have no relevant financial relationships that create a conflict of interest related to the content of his presentation. The following planners of this CME activity have no relevant financial relationships with commercial interests to disclose: Adam Wende, PhD, Joseph Messina, PhD, Frida Rosenblum, MD, Dan Atherton, MD. There is no commercial support for this session.

The University Of Alabama School Of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The University of Alabama School of Medicine designates this Regularly Scheduled Series for a maximum of 1 AMA PRA Category 1 credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
