

Advances in Molecular & Cellular Pathology

Seminar Series Tuesdays 12-1 PM

Tinsley Harrison Tower THT 740

Spring 2017 Schedule

January 10, 2017

Martin E. Young, DPhil
Professor
Division of Cardiovascular Disease, UAB
"Circadian Control of Cardiac Processes - Causes and Consequences"

January 17, 2017

Songtao Shi, DDS, PhD
Professor and Chair
School of Dental Medicine, University of Pennsylvania
"Epigenetic Regulation of Mesenchymal Stem Cell-Based Immune Therapies"

January 24, 2017

Anath Shalev, MD
Professor and Director
Comprehensive Diabetes Center, UAB
"microRNAs, TXNIP, and Diabetes"

January 31, 2017

Adam R. Wende, PhD
Assistant Professor
Department of Pathology, UAB
"Cardiac DNA Methylation: From Mice to Men and Back Again"

February 7, 2017

Michele T. Pritchard, PhD
Assistant Professor
University of Kansas Medical Center
"Beyond Biomarkers: Hyaluronan and the Hyaluronan Network in Liver Health and Disease"

February 14, 2017 - ♥ Valentine's Day

Yi-Ping Li, PhD
Jay McDonald Endowed Professor
Department of Pathology, UAB
"Osteoclast Endogenous Negative Signaling Attenuates Osteoporosis and Rheumatoid Arthritis"

February 21, 2017

Jessy Deshane, PhD
Associate Professor
Pulmonary, Allergy, and Critical Care Medicine, UAB
"Metabolic Reprogramming in the Tumor Microenvironment by Indoleamine 2,3-Dioxygenase"

February 28, 2017

Min Xie, MD, PhD
Assistant Professor
Division of Cardiovascular Disease, UAB
"The Protective Role of Autophagy in Cardiac Ischemia/Reperfusion Injury"

March 7, 2017

Andra R. Frost, MD
Professor
Department of Pathology, UAB
"A Bioengineering Approach to Modeling Breast Carcinoma In Vitro"

March 14, 2017

LuFang Zhou, PhD
Associate Professor
Division of Cardiovascular Disease, UAB
"Mitochondrial Dysfunction and Antioxidant Treatment in Pressure Overload-Induced Heart Failure"

March 21, 2017

Craig L. Maynard, PhD
Assistant Professor
Department of Pathology, UAB
"Co-stimulating Mucosal Immune Regulation"

March 28, 2017

Joseph L. Messina, PhD
Professor
Department of Pathology, UAB
"Metabolic and Immune Dysfunction Following Polytrauma"

April 4, 2017

Thomas M. Ryan, PhD
Associate Professor
Biochemistry and Molecular Genetics, UAB
"Gene Editing Therapies in Humanized Mouse Models of Beta Thalassemia Major"

April 11, 2017

Yi Li, PhD
Professor
Lester & Sue Smith Breast Center, Baylor College of Medicine
"Molecular and Cellular Basis of Breast Tumorigenesis"

April 18, 2017

Lizhong Wang, MD, PhD
Assistant Professor
Department of Genetics, UAB
"X-Linked Tumor Suppressor Gene FOXP3"

April 25, 2017

Charleen T. Chu, MD, PhD
Professor of Pathology
University of Pittsburgh Medical Center
"Mitochondrial Mechanisms in Mutant LRRK2 Pathogenesis"

*Co-Sponsor of visit: CFRB
