ED	ED	ED

“ED” months are comprised of 12 eight-hour shifts/month in the pediatric ED. The mindset is that this structures the month to be 70% clinical and 30% available for research.

“ED!” months are concentrated ED time equals 16 eight-hour shifts/month (100% Clinical)

A * indicates no Pediatric ED Shifts. On the other months (research, selective, toxicology, and anesthesia), fellows work 8 eight-hour shifts/month.

Note: Once Research is complete (per SOC) then electives may be substituted for research months

Selectives: Must complete one orthopedics month and two weeks each of Abuse and EMS

Available Electives:

(Electives may be arranged for two to four weeks during elective months.)

Adolescent

- Administrative
- Burns
- Cardiology
- Child Abuse (physical and sexual)
- Dentistry
- Dermatology
- Gynecology
- Obstetrics
- Ophthalmology
- Otolaryngology
- Pediatric Critical Care
