2015 Pediatric Emergency Medicine Fellows

Johanna Hall , MD – I was born and raised outside Atlanta, Ga and headed to UGA following high school. I am a HUGE Georgia Bulldog fan and attend as many games as possible. I spent several years teaching middle school in Georgia before following my childhood dream to become a "baby doctor." In my spare time, I travel as far as I can to see the world. Recently, I was able to attend a wedding in Santorini, Greece and spend my birthday exploring Germany.

Shea Duerring, MD – I was born and raised in West Virginia. Before medical school I was a paramedic. I continue to be involved in EMS even to this day. My wife's name is Emily. We have been together for over 10 years now. We do not have any kids but we have a dog, Jeb, who is spoiled rotten. In my free time I enjoy cooking, eating, running, fishing, shooting, and watching movies. I like country music and my favorite movies are Casablanca and Shooter.

Kim Massey, MD - I am of 1 of 4 children all of which are females. My family has been blessed with 3 amazing nephews that I absolutely adore spending time with. I enjoy reading and spending time with my family. I am an ex-athlete so I enjoy playing softball and basketball although recently, I found a new interest in cycling. You will often find me at a sporting event. I love SEC football, especially the Georgia Bulldogs. Go Dawgs!!

Christine Campbell, MD - I was born and raised in Alabama, but I've travelled a good bit. I attended college at Dartmouth, New Hampshire where I learned to love outdoors activities including hiking, kayaking, and skiing. I completed a residency in pediatrics at UAB and am very excited to continue working here as a PEM fellow! I have a son with whom I enjoy weekends at the lake and playing ultimate, among other things.

J. Langston Lee, MD – I was born and raised in Dallas, TX! My wife tells me I can be that annoying Texas guy. My wife and I met at Hendrix College in Conway, AR. This year will be nearly 10 years together. Our son Callahan will be 2 years old this October and we are expecting again. We enjoy exercising, eating Texas BBQ and southern food, baseball, country music, hanging out as a family, and many outdoor things including horseback riding, biking, hiking, and skiing. I love photography and Britney likes cooking/baking for

**2015 Pediatric Emergency Medicine Fellows** *cont'd*

Jon Buice, MD – I was born way down south in Bogota, Colombia; adopted at birth by my awesome parents who brought me up to Georgia when I was just a couple months old. I attended Emory University for undergrad and the Medical College of Georgia for med school. I then moved up to Charlotte, NC for my pediatric residency. I recently married my best friend Becky and we can't wait to move to Birmingham and try out everything the city has to offer. We're pretty active and love sports (Go Dawgs!), good food, traveling, live music, and going on adventures!

Megan Brennard, MD – I grew up in Gadsden, AL playing softball and cheerleading. I have been in Birmingham since college at Samford University, where I completed a pre-med/music. I played the piano back then, and hope to pick it back up during fellowship :) I attended UAB for medical school and pediatrics residency and am now excited to continue as a fellow here. I met my husband, Josh, in college and we love watching football, going on trail runs with our weimaraner, Benson, and travelling to our family's lake house when we have some free time.

Kathleen Richard, MD—I was born and raised in New York, but over the last 10+ years, I have made a slow migration to better weather! While most of my family is still in the Northeast, when I met my husband, Glen in med school at Wake Forest, I agreed to marry him on the condition that he not take me back to a location where several feet of snow is the norm. We had our first child, a son, in June. When I'm not working, I love to run, cook, or do anything outdoors with my husband and our springer spaniel, Gibson.

Josh Haupt, MD—I was born in Chicago, but grew up in Ft. Myers, FL. I went to UCF for undergrad where I met my wife, and we continued on together where she completed vet school and I med school at St. George's. We have one son, Connor, and have been having a ball with him while learning the side of pediatric that is not in the textbooks. We enjoy anything outdoors: hiking, kayaking, camping, hockey, cooking, restaurant hopping and live music.

Todd Fleenor, MD— I'm originally from the hills of Franklin, TN where I grew up the oldest of 4. For the first 2 years of med school, I lived on the island of St. Martin before spending my 3rd and 4th years of med school in Long Island, NY and Detroit, MI before coming to UAB for Peds residency where I fell in love with Peds EM. I love traveling to new places and discovering new people and cultures, so when I'm not working, you'll find me traveling (my favorite places are Northern Ireland and Austria.) I also enjoy hiking, working in my garden, and taste testing Birmingham's food and craft beer.

Emergency Medicine Fellowship

Todd Fleenor, MD

Joshua Haupt, MD

Kathleen Richard, MD

The Pediatric Emergency Medicine (PEM) fellowship program at the University of Alabama at Birmingham (UAB) began its thirty-first year in 2015. Our PEM program was accredited through the American Board of Pediatrics in the fall of 1999. We were last accredited in 2011 and our next visit is set for 2019. Since 1995, we have been dedicated to educating our fellows based on a three year model. The aims of our fellowship program are:

1. To provide a three year curriculum that trains individuals in all aspects of pediatric emergency medicine, including key procedures.
2. Gain broad knowledge and skills in common and uncommon pediatric emergencies as well as gain exposure to adult emergencies.
3. To produce physicians with skills in research and quality improvement strategies to allow them to support ongoing efforts in the field.

To achieve these aims, we emphasize the six core competencies (patient care, medical knowledge, practice based learning, interpersonal skills, professionalism, and systems based practice) and their accompanying 23 PEM specific sub-competencies and milestones. These will be addressed through a variety of activities as described in each of the above sections.

We are a division of the UAB Department of Pediatrics. Currently, there are over 170 full-time faculty in general pediatrics and the subspecialty divisions. The Department of Pediatrics is responsible for more than 160,000 outpatient visits, including over 69,000 emergency department visits. General pediatric and subspecialty faculty manage more than 9,800 inpatient admissions per year. Total inpatient days are in excess of 78,000. The Department of Pediatrics has a major commitment to research and consistently ranks in the top 20 among all departments of pediatrics in the country in NIH funding. The Pediatric Residency Program consistently has a pass rate near 100% for both pediatrics and med peds. Only 16 of 200 (8%) US Pediatric Residency Training Programs have pass rates of 95% or higher. Seven of Children's of Alabama's pediatric specialty services were placed among the top programs in the United States by *U.S. News and World Report* in their 2015 ranking of The Best Children's Hospitals. The goals of our fellowship program emphasize the six core competencies, patient care, medical knowledge, practice based learning, interpersonal skills, professionalism, and systems based practice. They will be accomplished through a variety of activities as described in each section - Clinical, Teaching, Research and Administrative.

Policies and Procedures

The National Resident Matching Program (NRMP) recommends all applicants review the policies and procedures manual of any institution they are considering listing on their certified rank order list. We have included a copy of our Initial Resident Agreement for 2015-2016 that all incoming residents are required to sign. If you are interested in checking out a complete list of our policies and procedures, please check out the UAB Graduate Medical Education website at:

UAB MEDICINE

UAB HOSPITAL

INITIAL RESIDENT AGREEMENT

This agreement is entered into the ____ day of ____ between the Board of Trustees of the University of Alabama on behalf of The University of Alabama Hospital ("Hospital"), and ____ ("Resident").
Hospital wishes to appoint the Resident as a postgraduate year ____ resident in the ____ Program and Resident wishes to accept such appointment.

Therefore, the parties hereto agree as follows:

- 1. Term of Agreement.** Unless earlier terminated in accordance with this agreement, the term of the Resident's appointment is one year commencing on ____ and terminating on ____.
- 2. Graduate Medical Education Policies and Procedures.** Resident has been provided a copy of the UAB Hospital Graduate Medical Education Policies and Procedures. Resident acknowledges receipt of said document as well as having read and understood it. Resident acknowledges and comprehends the guidelines and/or the processes outlined in the GME Policies and Procedures, including, without limitations, those sections regarding resident eligibility and requirements for residency training (Section III.A), resident responsibilities and conditions of appointment (Section V), educational program and faculty responsibilities (Section VII), financial support and benefits (Section IV), ancillary and support services (Section VI), disciplinary procedures (Section X), grievance procedures and due process (Section XI), professional liability insurance (Section IV.F), health and disability insurance (Section IV.E), annual leave (Section IV.G), supervision of residents (Section VIII.C), duty hours (Section VIII.H), moonlighting (Section VIII.L), counseling services (Section VI.C), physician impairment (Section IX), residency closure/reduction (Section IV.B), restrictive covenants (Section III.C), and University of Alabama at Birmingham policies on harassment (Appendix 9).
- 3. ACGME Accreditation Related Activities.** In programs accredited by the Accreditation Council for GME (ACGME), resident acknowledges and agrees to maintain compliance with activities related to program accreditation in the time prescribed. These activities include, but are not limited to, completing the ACGME Resident Survey, logging duty hours and completing case logs as requested by the Program Director.
- 4. Salaries.** Salaries are determined each year based on the budget of the Hospital with approval by the Dean's Council for Graduate Medical Education. Resident shall be paid the salary approved for the appointed postgraduate year, as specified in Section 1 of this agreement, and in accordance with the GME Policies and Procedures, Section IV.D.
- 5. Physical Examination.** Resident understands that failure to complete a health screening examination performed by the Hospital, as outlined in Section V.D. of the GME Policies and Procedures will result in suspension or termination of his/her appointment as a resident.
- 6. Tobacco-Free Hiring Policy.** Resident understands that he/she will not be hired if found to test positive for nicotine use on the pre-employment drug screen performed by the Hospital, as outlined in Section V.E of the GME Policies and Procedures.
- 7. USMLE/COMLEX Examinations and Alabama Licensure.** Resident understands that failure to pass the USMLE or COMLEX examinations and obtain licensure in the State of Alabama, as outlined in Sections V.K, V.L, and V.M of the GME Policies and Procedures, will result in suspension or termination of his/her appointment as a resident.
- 8. Renewal of Agreement.** Resident understands and acknowledges that this agreement expires on the date set forth in Section 1 and that Hospital makes no commitment to renew this agreement. Reappointment and advancement of the Resident is at the discretion of the Program Director in accordance with Section III.F. of the GME Policies and Procedures. If a decision is made by the Hospital not to renew this agreement at the end of its one year term, notice of such nonrenewal shall be made in writing four months in advance of ____, in accordance with section III.D of the GME Policies and Procedures. However, if the primary reason for the non renewal occurs within the four months prior to the end of the agreement, the notice of non renewal may be sent less than four months in advance of the non renewal. Any resident receiving notice of intent to not renew his/her contract may request a hearing as outlined in Grievance Procedures, Section XI.C. Any resident receiving notice of intent of non-promotion to the next level of training may request informal adjudication as outlined in Grievance Procedures, Section XI.B. Each Resident who is offered a renewal of this agreement must accept such offer in writing within thirty (30) days of the date shown in the first paragraph of the renewal contract. Likewise, if a decision is made by the Resident not to renew this agreement at the end of its one year term, the resident shall submit notice of such nonrenewal in writing to the Graduate Medical Education Department four months in advance of ____.
- 9. Termination of Agreement.** Hospital may terminate the Resident Agreement, as set forth in the GME Policies and Procedures. If the resident leaves the program, thereby terminating this agreement, the resident will have breached this agreement. In the event of such breach, resident understands and agrees to the following: 1) the Hospital will report the resident's breach of the agreement to the National Resident Matching Program, if applicable; and, 2) the Program Director and the Hospital will include the fact of the resident's breach in any reference letters.
- 10. Acceptance.** This agreement shall not be effective and shall not bind either party unless it is submitted to Hospital within sixty (60) days of the date shown in the first paragraph of this agreement and accepted by the Hospital by signature below.
