CBR SUBMISSION WORKBOOK

Version 04/01/19

The CBR Submission Process consists of completing the appropriate sections of this workbook and attaching specific study documents. Please see below for a list of submission types, required documents for each submission and workbook forms applicable for each submission type. The Bookmark feature to the left will navigate you through the various sections of the Workbook. Blue underline indicates that you will be taken directly to the form or link referenced.

Please note it is required that a CBR Submission Workbook be completed for ALL CBR submissions. The Billing Plan lists all protocol activities: 1) billable services (such as labs and radiology scans that are CPT-coded services billed though the UAB Health System) and 2) non-billable services (such as informed consent and concomitant medications that are study services without CPT codes). Each study activity from the protocol Schedule of Events/ Study Schema is required to be listed under the corresponding header in the Billing Plan. Please use the attached FAQs to assist with completing this Workbook.
